EIGHTY-FIRST

ANNUAL REPORT

OF

THE MOUNT SINAI HOSPITAL

OF THE

CITY OF NEW YORK

For the Year 1933

Act of Incorporation Filed February, 1852

CONTENTS

Activities of the Medical Staff, Report on.....	47-52
Attending Staff	25-40
Committees of Board of Trustees.....	17-21
Committees of Medical Board	22-24
Consulting Staff	25
Constitution, Extracts from, on Endowments.....	176
Current Account Receipts and Disbursements	62-63
Dedicated Buildings	114-119
Donations and Legacies for Special Purposes.....	53-55
Endowed Rooms	125-126
Endowed Wards	119-124
Endowment Funds	61
Endowments for Special Purposes	56-58
Executive Officers, Mount Sinai Hospital	46
Fellowships and Special Appointments.....	37-38
Graduate Medical Instruction, Department of	43-45
Graduates of House Staff	166-169
Historical Note	3-5
House Staff	41-42
Interns and Externs in Roentgenology Since 1921	175
Interns in Dentistry	175
Interns in Pathology Since 1913	171
Laboratory Staff	36-37
Laboratories, Report of Committee	81-82
Ladies' Auxiliary Society, Officers of	112
Ladies' Auxiliary Society, President's Report	112
Ladies' Auxiliary Society, Treasurer's Report	113
Legacies and Bequests	156-159
Life Beds	154-155
Life Members	160
Medical and Surgical Staff	25-40
Medical Research Funds	59-60
Memorial Resolution	15
Memorial Beds	151-153
One Year Interns and Externs Since 1898	170-171
Officers, Medical Board, 1934	22
Officers, School of Nursing	46
Officers and Trustees Since Foundation	161-165
Out-Patient Department Staff	26-40
Out-Patient Department, Report of Committee	78-80
Perpetual Beds	130-147
Perpetual Beds—Children's Pavilion	148-150
President's Report	6-14
Resident Staff Since 1906	172-174
School of Nursing, Officers and Directors	83
School of Nursing, President's Report	84-88
School of Nursing, Special Funds	89-90
School of Nursing, Treasurer's Report	91
Social Service Auxiliary, Officers and Committees	92-93
Social Service Auxiliary Staff	93
Social Service Auxiliary, Treasurer's Report	100-101
Social Service Auxiliary, Donations	102-104
Social Service Auxiliary, Gifts of Articles	105-111
Social Service Department, President's Report	94-99
Statistical Summary	5
Statistics—Comparative Statement	69-77
Tablets	127-129
Treasurer's Report	62-68
Trust Funds for Special Purposes	54
Trustees, 1934	16

HISTORICAL NOTE

The Mount Sinai Hospital was organized and incorporated in 1852 for "benevolent, charitable and scientific purposes." The work of the Hospital was begun in a small private dwelling on 28th Street, between Seventh and Eighth Avenues, which accommodated 28 patients. The Hospital now has accommodations for 736 patients, not including 18 beds in the receiving ward.

In 1871 the Hospital completed and occupied, at Lexington Avenue, 66th and 67th Streets, a building having a capacity of 200 beds.

The Dispensary, now known as the Out-Patient Department, was inaugurated in 1872.

The clinical departments first organized were those of medicine and surgery; a gynecologist was appointed in 1877.

Mount Sinai created precedents among the hospitals of New York by setting up a distinct pediatric service in 1878 and an otologic service in 1879; the latter was at first combined with, but in 1910 was separated from, ophthalmology and laryngology.

The Mount Sinai Training School for Nurses, in affiliation with the Hospital, was incorporated in March, 1881; the name of the school was changed in 1923 to The Mount Sinai Hospital School of Nursing.

In 1883 a committee was formed to develop a Medical Library.

In 1886 a district medical service was inaugurated.

Provision for the care of private patients was first made in 1886; an intermediate or "semi-private" ward was opened in 1904.

In 1893 a Pathological Department was established, and consultants in dermatology and neurology were appointed.

The corner stone of the group of ten hospital buildings occupying the block bounded by Fifth and Madison Avenues, 100th and 101st Streets, was laid May 22nd, 1901; the buildings were completed and occupied March 15th, 1904, when 500 beds became available for the care of the sick.

A Department of Dietetics was established in 1905.

A Social Service Department was inaugurated in 1906.

A Tuberculosis Clinic was organized in 1908.

HISTORICAL NOTE

The first of a series of "Fellowship" funds was created in 1908 to assist investigators engaged in scientific medical work.

The Hospital's first X-ray machine was installed in 1900. In 1910 a full-fledged Department of Radiology was formed and in 1924 the department was subdivided into separate branches for (a) radiography and (b) X-ray and radium therapy.

In 1910 the three-story Out-Patient Building, which had been completed in 1904 was altered to a five-story building, and the Nurses' Home was enlarged from a six-story to an eight-story building. At the same time new isolation wards were erected on the roof of the Medical Building.

A Dental Department was established for the benefit of in-patients in 1910; this work was extended to the Out-Patient Department in 1925.

An orthopedic surgeon and a physio-therapist were named in 1911.

Roof wards for outdoor treatment were erected on the Medical and Surgical Pavilions in 1912.

The Hospital in 1912 accepted a fund "for the advancement of preventive medicine." A "health class" for children was promptly established.

In 1913 the erection of seven additional buildings south of 100th Street was begun; four of these buildings were occupied in 1915, and three, namely, the Private Pavilion, the Children's Pavilion and the Auditorium, were completed in the spring of 1922. With these additions, the Hospital was able to care for 654 patients.

The first of a series of lectureship funds was established in 1913. These funds provided honoraria for distinguished visiting lecturers.

Electro-cardiography was instituted in 1915.

In 1917, Mount Sinai Hospital became a constituent member of the Federation for the Support of Jewish Philanthropic Societies, which was organized in that year.

Until 1917, tonsillectomies were performed in the Dispensary, often without anesthesia; in the year mentioned, a "tonsil and adenoid" ward, with a fully equipped operating room, was opened.

A Mount Sinai Hospital Unit, organized as a section of the Medical Department of the United States Army, was sent to France in 1918.

HISTORICAL NOTE

Post-Graduate medical instruction was formally organized in 1923, in affiliation with the College of Physicians and Surgeons of Columbia University.

A permanent fund for the support of medical research was inaugurated in 1925, prior to which research was precariously supported by occasional donations.

The construction of a new school and residence building for the School of Nursing, fronting on 98th Street, between Fifth and Madison Avenues, was begun in 1925 and completed in 1927; the residence accommodates 490 nurses.

The new Semi-Private Pavilion for the care of patients of moderate means was completed and opened to the public in 1931.

Group or cooperative special nursing was introduced for the first time.

A Consultation Service for ambulant out-patients of moderate means was organized in 1931.

Neuro-surgery was included in General Surgery until 1932, when a separate service was created.

The modernization of the Out-Patient Department Building was completed in 1933.

New facilities for Cystoscopy were built and occupied in 1933.

STATISTICAL SUMMARY

Year	Patients Treated in Hospital	Hospital Days	Consultations in Out-Patient Department	Disbursements for Maintenance of Hospital and Out-Patient Department
1857.....	216	6,048*	None	\$9,000.00
1860.....	297	8,316*	None	14,000.00
1870.....	663	18,564*	None	20,000.00

* Estimated

PRESIDENT'S REPORT

Another year has been added to the cycle of depression and the financial situation of the Hospital has given us and continues to give us deep concern.

Decreased earning power of the individual is cumulative in its effects and to those who could not take care of themselves in the first years of the crisis there is constantly added the large number whose savings have gradually been depleted and who therefore no longer can carry the burden of sickness when it falls upon them.

The result is that the calls made upon the Hospital for free treatment constantly increase and this increased demand is concurrent with the lessened ability of another large proportion of the population to contribute liberally to charitable institutions.

We feel that in times like these it is our duty to disregard the balancing of our budget and to turn no one away from our doors and we have followed this policy during the past year. In doing so we were compelled to dip deep into our capital fund which is none too large and the size of which will not permit similar action for more than a very limited period.

This is a time when those who are able to do so must bring sacrifices and we should like once more to call the attention of the community that ours is not a rich institution. Mount Sinai Hospital was never in a position to accumulate a large reserve fund because, relying on the generosity of the public, we have followed a liberal policy in the development of an institution which could adequately care for the afflicted and neither money, time, nor energy was spared in developing preventive and therapeutic medicine.

Not only do we need liberal support through contributions, but we also urgently require remembrances in wills to build up a reserve for times such as we are now passing through. The closing of any part of the Hospital for lack of funds is an eventuality too fateful in its consequences to be contemplated.

The number of patients treated in the Hospital in 1933 was 14,335 against 14,237 in 1932; patients in the Private Pavilion numbered 1,675 against 1,704 during the previous year; consultations in the Out-Patient Department were 289,649 against approximately 245,000 in 1932.

PRESIDENT'S REPORT

In March 1933, an additional floor was opened in the Semi-Private Pavilion and another floor was given to the service a few months ago, thus providing accommodations for 104 patients in this building. The total capacity of this building is 130, one floor not yet being occupied.

The constantly increasing use of the Semi-Private Pavilion shows how great the need for it has been and it is a satisfaction to know that we have put at the disposal of the community an accommodation which is so greatly needed.

The Consultation Clinic has continued in great demand. No less than 1,090 physicians have referred 1,952 patients to it to obtain from our staff, diagnostic judgment and advice as to treatment. This service is of a strictly advisory nature and all the applicants return to their physicians after completion of the diagnosis.

Many improvements in our plant were completed during the year.

The remodeling of the Dispensary Building was accomplished and it is now taking care of more patients under vastly improved conditions.

New cystoscopy rooms and operating rooms for the Eye Department were built and equipped in the Administration Building and the former in particular are regarded as a model of perfection in their line.

The Jacobi Library has been transferred to new and more spacious quarters better adapted to its needs.

The Follow-up Clinic has also been established in more appropriate surroundings in the Out-Patient Building.

The Record rooms of the Hospital have been transferred to more adequate space in the Out-Patient Department and the records of the Out-Patient Department have now been combined with the Hospital records, thus accomplishing an improvement which has long been recognized as necessary but has been delayed for lack of space.

Two large boilers and one engine-driven dynamo were added to our power plant. The additions to the Hospital plant during these last years have made it imperative to increase the heating and power capacity.

PRESIDENT'S REPORT

Several other improvements in our physical plant are now being undertaken and they should all be completed by the end of 1934.

An accident of a serious nature which came near developing into a calamity happened on December 28th. A large water main located at the corner of Fifth Avenue and 100th Street, burst on one of the coldest nights of the winter. The engine and boiler rooms were submerged and the fires in the boilers extinguished. Our emergency connection with the Edison Company prevented darkness from reigning throughout the Hospital. The tunnels connecting the various Hospital buildings were under three feet of water. Due to the wonderful energy and discipline displayed by our staff, the accident passed off without serious consequences other than considerable property loss; and, due to the efforts of the various City departments, assisted by our staff, fairly orderly conditions were reestablished after twelve hours.

Developments in Germany resulted in the emigration of many renowned scientists, not a few of whom desire to make this country their future abode. In order to help this group and in the interest of science and its development in our institution, we felt that we should do what we could to give these men the opportunity to continue their work. We therefore arranged to admit some of them to our laboratories and your Trustees personally pledged a fund of about \$20,000 to be expended during a period of two years.

The influence of diet on health in general and in case of illness in particular is increasingly recognized, but instruction in this respect has not yet been given the merited attention. Our Dietary Department felt that it could render distinct service in this direction and gave close study to a program of instruction how diets should and could be arranged for the various requirements and how the maximum benefit could be obtained at a minimum cost. An exhibition of posters and charts of food costs and food values, supplemented with the showing of actual food portions, was installed in our Out-Patient Building. It created much interest and was very favorably commented upon, and we believe that it has been very helpful in many ways.

One of the results of the Shwartzman Phenomenon discovered in our laboratories was the development of a serum for typhoid fever. So few cases of this disease now occur in New York City that it was impossible to test the value of the serum here

PRESIDENT'S REPORT

and it was decided to send during last summer an expedition to Louisiana where typhoid fever is still prevalent and where, therefore, the opportunity for study was present. Collaborating with Dr. Schwartzman, were representatives of the United States Public Health Service. Their joint reports indicate, after the treatment of a comparatively large number of typhoid patients, that the new serum is of definite therapeutic value, bringing about improvement in a number of the cases in which it was administered. Further improvements in this product and corresponding benefits from its use are to be expected in the future.

To carry out the work of Dr. Schwartzman it required the use of many horses, and we are indebted to Mrs. S. S. Prince who put her farm at the disposal of the Hospital for the keeping of these animals.

The American Medical Association awards annually one gold medal, designated "Class I", for original investigative work. This medal was awarded in 1933 to Dr. Moses Swick, Adjunct on our Surgical Service, for his display of photographs showing the use of a substance he has perfected in making kidney disorders visible in X-ray films. Dr. E. Libman and Dr. B. S. Oppenheimer have been the recipients of this medal in previous years.

The expenditures for current purposes of the Hospital, including the School of Nursing, the Social Service Department and the Ladies' Auxiliary in 1933, amounted to.....\$1,595,652.96
Receipts applicable to current expenditures were..... 1,454,490.06

Leaving a deficit of..... \$141,162.90

Included in the above receipts are the following:

From Federation for The Mount Sinai Hospital Group \$311,366.15
From the United Hospital Fund..... 37,988.74
From the City of New York..... 237,903.30

Among the lectures given in the Hospital during 1933 by men outstanding in their profession were the following:

Dr. Haven Emerson, Professor of Public Health Administration, Columbia University. "Facts and Opinions from the Committee on Costs of Medical Care."

Dr. Morris Fishbein, Editor of the Journal of the American Medical Association. "The Trend of Private Practice."

PRESIDENT'S REPORT

Dr. Felix Deutsch, F.R.C.P., Senior Physician to Guy's Hospital in London. "Achlorydria, Anaemia and Degeneration of the Spinal Cord."

Professor Otto Loewi, Professor of Pharmacology, University of Gratz. "The General Principles of Regulation and Adaption in the Organism."

Dr. John Hay of Liverpool, England. "Some cases of Coronary Artery Thrombosis."

The Hospital again participated in the Graduate Fortnight of the Academy of Medicine and its contributions were most favorably commented upon.

With deep regret we record the death of:

Mr. Emil S. Levi. He actively served on our Board as Trustee from 1899 to 1917; during three years served as Vice-President and has been Honorary Trustee since 1917.

Dr. Alexis V. Moschcowitz. He was connected with the Hospital since 1895; was Surgeon to the Hospital for fourteen years until when he became Consulting Surgeon. His outstanding skill, his great consideration of the comfort of the patients and his genial personality will long be remembered.

Dr. Isador Abrahamson. He entered the service of the institution in 1903; was for many years Associate Neurologist in which capacity he rendered most valuable service.

The following appointments have been made on the Medical staff:

Dr. Arthur M. Master.....	Cardiographer to the Hospital
Dr. Morris S. Bender.....	Associate Laryngologist
Dr. Irving B. Goldman.....	Associate Laryngologist
Dr. Robert K. Lambert.....	Associate Ophthalmic Surgeon
Dr. Hermann Mond.....	Associate in Medicine
Dr. Joseph L. Goldman.....	Adjunct Laryngologist
Dr. Max L. Som	Adjunct Laryngologist
Dr. Joseph B. Stenbuck.....	Adjunct Surgeon
Dr. Solomon Silver.....	Adjunct Physician
Dr. William Needles.....	Adjunct Neurologist
Dr. Alfred E. Fischer.....	Adjunct Pediatrician

PRESIDENT'S REPORT

Much to our regret, Mr. Philip J. Goodhart decided to withdraw from active participation in the management of the Hospital and was elected an Honorary Trustee. Mr. Goodhart during the twenty-six years of his trusteeship, seven years of which he was Vice-President, has by wise counsel, active work and great generosity, contributed much to the progress of the institution.

Dr. S. S. Goldwater, on accepting the position of Commissioner of Hospitals of the City of New York, was compelled to sever his connection with our Hospital as Trustee. Regretting our loss, we congratulate the City on having obtained for this very important place the man who is best qualified to fill it. The new Commissioner has our best wishes and we feel sure that he will duplicate the success he had achieved years ago when he occupied the office of Health Commissioner of the City.

His many other activities made it necessary for Dr. Marcus A. Rothschild to relinquish the position of Cardiographer to the Hospital. Dr. Rothschild has been connected with the institution in various capacities for twenty-one years and the efficient and devoted service rendered by him is gratefully acknowledged.

Mrs. George Backer, Mr. Walter S. Mack and Mr. Alfred L. Rose were elected Trustees to fill vacancies.

Many benefactions were received during the year by gift and by will, including:

DEDICATION OF BEDS

The Fred H. Greenebaum Bed—Founded by provision in his will.....	\$7,500.00
In memory of Julia Hirsch—Dedicated by her children	7,500.00
In memory of Elias Kempner—Founded by provision in his will.....	5,000.00
In memory of Louis B. G. Garland—Dedicated by his parents, Edward S. Garland and Lillian B. Garland	5,000.00
In memory of Simon and Lucy Drukker—Dedicated by the will of their daughter, Jeannette D. Beaumont	4,799.39
In memory of Heyman and Martha Pincus—Founded by provision in the will of Martha Pincus.....	3,000.00

PRESIDENT'S REPORT

Dr. Ralph Colp—For Research Work on the Physiology and Pathology of the liver and gall bladder.....	\$2,000.00
Mrs. Addie H. Homan—For the Isidore HERNSHEIM Fellowship Fund	1,500.00
Anonymous—For Special Purposes.....	1,500.00
"A Friend"—For a Fellowship in Gynecology; to commemorate the 70th birthday of Dr. Joseph Brettauer	1,200.00
Dr. B. S. Oppenheimer—For The Arterio-Sclerosis Fund	785.94
Arthur Lorsch—For The Arthur Lorsch Fellowship Fund	750.00
Nelson I. Asiel—For Cancer Research.....	500.00
Ernst Rosenfeld—For Intravenous Therapy Research	500.00

The liberality of our friends is deeply appreciated and is a stimulation in our work.

The task of Federation to raise funds for its constituent societies has been exceedingly difficult, but the untiring efforts of its officers and of the members of the Business Council succeeded in creating so efficient an organization that the goal set for 1933 was reached. Adequate thanks for this performance cannot be expressed in words but we desire to tell Judge Proskauer, Messrs. Leidesdorf, Bittenwieser, Adler, Kops, Dr. Lowenstein and their co-workers how much we appreciate their wonderful work.

We are deeply indebted to the United Hospital Fund for our share in their collection which must be considered most satisfactory under the existing unfavorable conditions.

The cordial relations existing between our institution and the various City departments continue and are appreciated to the fullest extent.

As usual we were fortunate in having the hearty cooperation of Mrs. Cook, President of the Social Service Department; Mr. Hugo Blumenthal, President of The Mount Sinai School of Nursing; Mrs. Bernheimer, President of the Ladies' Auxiliary and their associates, and our appreciative thanks are tendered to all of them as well as to Mr. Lowenthal who continues his good work in the Photographic Department.

PRESIDENT'S REPORT

LEGACIES AND BEQUESTS

Estate of Alfred S. Heidelberg—Part payment.....	\$30,000.00
Estate of Henry F. Elias—Part payment	20,980.39
Estate of Isaac Marx.....	7,500.00

LEGACIES AND DONATIONS FOR SPECIAL PURPOSES

Estate of Alice Goldschmidt Sachs—For Alice Goldschmidt Sachs Endowment Fund—Income to be used for any extra budgetary purposes that may be designated from time to time by the Hospital Board of Trustees and the principal thereof to be held in perpetuity	25,000.00
Estate of Rosalie Hyams—For Joel E. Hyams Fund—Income to be devoted to Research Work for the discovery of a cure for cancer.....	10,000.00
Estate of Richard Sutro—For the establishment of the Richard and Ella Hunt Sutro Fellowship for Cardio-Vascular Research under the direction of the Medical Service of Dr. B. S. Oppenheimer.....	8,500.00
David A. Schulte—On account of operating O. P. D. Dental Department	8,000.00
Estate of Robert G. Blumenthal—To be added to Carrie M. and Gustav Blumenthal Endowment Fund.....	5,000.00
Adolph Lewisohn—(Final payment of his \$150,000.00 contribution for the Pathological and Laboratory Building)	5,000.00
Lucius N. Littauer Foundation, Inc—For study of inflammatory and degenerative diseases of the heart and blood vessels.....	3,700.00
Estate of S. S. Prince—For Pneumonia Protection Research	3,000.00
Anonymous—In memory of Louis Strasser, Jr.—For the investigation of Pyogenic Meningitis.....	2,525.00
Mrs. Lionel Sutro—For Lionel and Florentine Scholle Sutro Fellowship	2,000.00

PRESIDENT'S REPORT

To the loyalty, devotion and efficiency of our Medical staff under the leadership of Dr. Isidore Friesner and our Administrative staff, headed by Dr. Joseph Turner, is due in the greatest measure the success of our work and to them we extend the assurance that we are cognizant of this fact and that we prize it very highly.

Respectfully submitted,

GEORGE BLUMENTHAL,

President.

RESOLUTION ON THE DEATH OF DR. ALEXIS V. MOSCHCOWITZ

The Board of Trustees of the Mount Sinai Hospital has learned, with deep regret, of the passing away of Dr. Alexis V. Moschcowitz.

For almost forty years Dr. Moschcowitz has faithfully served on the staff of the Hospital in various capacities, and at the time of his death was Consulting Surgeon.

His great professional skill and his tireless devotion to the needs of his patients combined to make his services to the Hospital and the community of inestimable value.

His attributes were exceptionally fine and because of them, and of his intense human interest, he was loved by all who knew him.

To the members of his family we extend this expression of deep sympathy in their great loss.

GEORGE BLUMENTHAL,
President.

ARTHUR H. HARLOW,
Secretary.

REPORT OF THE ACTIVITIES OF THE MEDICAL STAFF FOR THE YEAR 1933

During the current year the following lectures were delivered in the Blumenthal Auditorium:

Dr. Haven Emerson, Professor of Public Health Administration, Columbia University, on:

"Facts and Opinions from the Committee on Costs of Medical Care."

Dr. Morris Fishbein, Editor of the Journal of the American Medical Association, on:

"The Trend of Private Practice."

Discussion by Dr. S. S. Goldwater, Chairman of Council on Community Hospital Relations, American Hospital Association, and by Dr. Bernard Sachs, President-elect of the New York Academy of Medicine.

Dr. Felix Deutsch, Docent at the University of Vienna, on:

"The Psychic Influence on Physiological and Pathological Processes in the Organism."

Dr. Arthur F. Hurst, F.R.C.P., Senior Physician to Guy's Hospital, London, on:

"Achlorhydria, Anemia and Degeneration of the Spinal Cord."

Professor Otto Loewi, Professor of Pharmacology, University of Gratz, on:

"The General Principles of Regulation and Adaption in the Organism."

Dr. John Hay of Liverpool, England, on:

"Some Cases of Coronary Artery Thrombosis."

Dr. B. M. Banks of the Mayo Clinic, on:

"Differential Diagnosis of Jaundice."

GRADUATE FORTNIGHT SYMPOSIUM: "Disorders of Metabolism":

Dr. Bernard S. Oppenheimer: "Neurogenic Graves' Disease. Clinical Cases."

Dr. Philip E. Smith: "The Pituitary Gland."

Dr. Robert T. Frank and Dr. M. A. Goldberger: "The Female Sex Hormone."

Dr. B. B. Crohn: "Disturbances of Excretory Function of the Pancreas; Creatorrhea; Stoatorrhea."

REPORT OF THE MEDICAL STAFF

Dr. George Baehr: "The Acid Base Influence of Food and Drugs in the Treatment of Diseases of the Genito-urinary Tract."

Dr. Herman Lande: "Significance of the Blood Chemistry in Diabetes Mellitus."

Dr. Leopold Jaches and Dr. Marcy L. Sussman: "Bone Changes in Metabolic Diseases."

Dr. Bela Schick: "Undernutrition and Overnutrition in Children."

Dr. Kaufman Schlivek: "Ophthalmic Changes in Diabetes."

SYMPOSIUM ON MEDICAL EDUCATION:

Dr. G. Canby Robinson, Director of Cornell University Medical College, on:

"The Preclinical Training of the Medical Student."

Dr. John Wyckoff, Dean of University and Bellevue Hospital Medical College, on:

"Clinical Training."

Dr. Willard C. Rappleye, Dean of College of Physicians and Surgeons, Columbia University, on:

"The Internship."

Professor Felix Bernstein, Visiting Professor of Mathematics, Columbia University, on:

"Medical Statistics."

On the surgical services progress has been made in the development and use of new intravenous compounds for intravenous urography. In addition, publications have been made on the subject of nephro-ureterectomy and on the treatment of suprapubic fistulae. There has also been an intensive study of the conditions which might tend to the lowering of the mortality in acute appendicitis. The effects of avertin on normal individuals have been studied and progress has been made in the study of pathological changes that occur in gall bladder disease with mild or no clinical manifestations. The chest service has instituted greater precision in the operative treatment of pulmonary tuberculosis by means of bronchographic and other examinations of the pathological states of the lungs. The excellent results and the marked decrease in the mortality which has resulted from the close cooperation between the surgical group handling the goitre cases and the medical service have been maintained through the current year.

The neuro-surgical service has completed its first full year as a separate service. The amount of work has been about the same as the year before. In conjunction with the Laboratories, investigation of pathological material, particularly with regard to brain abscess, has been begun.

On the gynecological service there has been a distinct increase in complicated abdominal tumors and inflammatory conditions during the year. Some of these cases are so rare as to warrant publication. Results obtained in vulvar cancer by local excision and immediate radiation after treatment have proved extremely gratifying, and a number of permanent cures have resulted. This condition previously gave the highest mortality of any genital cancer. Modification of the so-called "Manchester operation" for birth injuries has resulted in the development of a technic applicable to a majority of these cases with consequent reduction in the risks incident to former types of operation. The uniformly favorable results following the use of this new technic have never previously been attained. Close cooperation between the endocrine research laboratory and the clinical services in the wards and Out-Patient Department has proven a most helpful aid in the diagnosis of obscure gynecological conditions. The Brettauer Fellowship has afforded increased opportunity for post-graduate study in gynecology.

The laryngological, ophthalmological and otological services have been particularly active in the study of pathological material in the Laboratories, and numerous papers based upon these studies have been made by these services.

The place which the consultation service of The Mount Sinai Hospital has achieved in the community is indicated by the large number of physicians who have referred patients to it. The referring physicians comprise more than one-eighth of all those practicing within a fifty-mile radius of New York. It is encouraging to note that the number of patients investigated in the consultation clinic is constantly increasing.

One of the important achievements in the medical services during the past year has been in the Out-Patient Department. The installation of a central record system and the increase in the physical facilities have resulted in an improvement of the organization of the medical clinics and have linked them more intimately with the ward services. Ten beds on the wards are now assigned to the medical clinics of the Out-Patient Department. A splendid

staff of clinical assistants has joined the medical clinics and many of them are participating in the work of the medical services within the Hospital. A great deal of investigative work has been carried on.

Among the lines of investigation pursued on the medical services are the following:

The study of liver physiology and function.

The pathogenesis of arteriosclerosis, glomerulo-nephritic kidneys. arteriosclerotic and related inflammatory or degenerative vascular lesions.

Myocardial infarction with acute coronary occlusion.

Psycho-analytic study of gastric disease.

Study of the mechanism of the cerebrospinal circuit.

Hyperproteinemia with experimental study.

Glutathione content of the blood in anemias and erythremia.

Relation of lowered basal metabolism to edema.

Effect of increased intra-abdominal pressure on venous pressure curves in health, left and right heart failure and mediastinal tumor.

Skin lesions in gonococcemia.

Specific, dynamic action of proteins in pituitary nanism.

Renal function in coronary thrombosis and other forms of shock.

An unusual form of subacute polyserositis associated with arthritis, febrile course, renal phenomena and thrombo-endocarditis, as exemplified in four cases.

Studies in thrombo-endocarditis.

Classification and treatment of disease of the ductless glands.

Treatment of cases of paralysis agitans.

Natural history of subacute bacterial endocarditis.

Blood serum studies in subacute bacterial endocarditis.

Blood serum studies in infectious mononucleosis.

Blood studies in rheumatic fever.

Hypoplastic aorta as cause of heart failure.

Staphylococcemia with recovery and natural Shwartzman phenomena.

Blood studies in Graves' Disease.

Lawrence-Moon-Biedl syndrome.

Therapy in subacute bacterial endocarditis.

New serum therapy of ulcerative colitis.

Gastric secretion studies.

REPORT OF THE MEDICAL STAFF

Experimental laboratory work on peptic ulcer.
Psychogenetic etiology of essential hypertension.
Metabolic studies in sprue, pernicious and other anemias.
Neurogenetic diabetes.
Idiopathic pulmonary hemorrhage.
The clinical features of putrid lung abscess.
Sedimentation time—photographic method.
Relationship of Scleroderma and Raynaud's Disease.
Treatment of arthritis by hypertonic intravenous saline.
The peripheral vascular system in the health examination.
The differentiation between acute coronary thrombosis and pulmonary embolization.
The occurrence of heart block in coronary thrombosis.
The effect of elevated metabolism on the hearts of frizzle fowl.
The fate of tartaric acid in the human body.
The therapeutics of the intravenous drip.
The value of psychoanalysis as a therapeutic procedure.
Dilatation and hypertrophy of the heart in infants and young children with myocardial degeneration and fibrosis.
Factors causing clinical jaundice in heart disease.
The arterial blood vascular distribution to the left and right ventricles of the human heart.
The uncontrollable causes of death in diabetic coma.
A method for the estimation of bile salts in body fluids.

In addition, the research work in the allergic division of the Department of Medicine during the current year has concerned itself with the study of vascular allergy. This has embraced consideration of thrombo-angiitis obliterans, angina pectoris, and coronary artery disease. Studies have also been conducted in the immunological reactions and treatment of poison ivy. Infectious asthma has been investigated in conjunction with the chief of the laryngological service. On the gastro-intestinal division, progress has been made in the treatment of peptic ulcers by means of a new therapy, the so-called continuous milk drip.

During the past year, investigations dealing with a wide range of subjects have been carried on on the pediatric service. Studies have been made of the basal metabolism in asthma, epilepsy and splenomegaly. Reports have been made on abnormal nutritional states as well as the treatment of obesity. Studies have been made of the cholesterol partitions of the blood in cretinism. In the

REPORT OF THE MEDICAL STAFF

asthma clinic studies have been conducted on the incidence and significance of mould sensitization. The Schilling blood count and sedimentation test in allergic children have been investigated. Publications have been made on the causes of infantile eczema with special reference particularly to contact with feathers. Work is in progress on capillary visualization in Mongols, and the etiology of rheumatic fever. Studies have also been conducted in conjunction with the Electro-cardiographic Laboratory concerning systolic heart murmurs. Investigation of the cause of intestinal intoxication and its treatment has been continued.

On the dermatological service, research has been carried on concerning fungus diseases with particular reference to culturing of fungi from scaling dermatoses. The investigations of snake venom as a therapeutic agent are being continued.

A complete report of the activities of the Laboratories will be found elsewhere in the Annual Report. The papers published during the year represent investigations of a great variety of problems in which, as in preceding years, there has been conspicuous cooperation between the clinicians and the full time laboratory workers.

A new development in the Department of Radiology has been the extension of its facilities and the services of its staff for a full time graduate course in Roentgen diagnosis and therapy. Investigations carried on in this Department have resulted in the publication of following papers:

1. New Considerations of Excretion Urography.
2. Small Bowel Lesions.
3. Chronic Osteomyelitis of the Spine.
4. A Simple Technique for Roentgen Examination of the Petrous Pyramids.
5. The Roentgen Diagnosis of Spinal Deformities.

In the Department of Radiotherapy, studies have been made, in cooperation with the pediatric and neurological services, of the Roentgen treatment of mongolian idiocy. Members of this department, in conjunction with the various clinical departments, have followed the clinical response of both benign and malignant conditions to radiation therapy.

ISIDORE FRIESNER, M.D.,

President of the Medical Board.

DONATIONS AND LEGACIES FOR SPECIAL PURPOSES DURING YEAR 1933

Estate of Alice Goldschmidt Sachs—For The Alice Goldschmidt Sachs Endowment Fund—Income to be used for any extra budgetary purposes that may be designated from time to time by the Hospital Board of Trustees and the principal thereof to be held in perpetuity.....	\$25,000.00 ✓
Estate of Rosalie Hyams—For The Joel E. Hyams Fund—Income to be devoted to Research Work for the discovery of a cure for cancer.....	10,000.00 ✓
Estate of Richard Sutro—For the establishment of The Richard and Ella Hunt Sutro Fellowship for Cardio-Vascular Research under the direction of the Medical Service of Dr. B. S. Oppenheimer.....	8,500.00 ✓
David A. Schulte—On account of operating O. P. D. Dental Department	8,000.00
Estate of Robert G. Blumenthal—To be added to Carrie M. and Gustav Blumenthal Endowment Fund.....	5,000.00 ✓
Adolph Lewisohn—(Final payment of his \$150,000.00 contribution for the Pathological and Laboratory Building).....	5,000.00
Lucius N. Littauer Foundation, Inc.—For study of inflammatory and degenerative diseases of the heart and blood vessels.....	3,700.00
Estate of S. S. Prince—For Pneumonia Protection Research....	3,000.00 ✓
Anonymous—In memory of Louis Strasser, Jr.—For the investigation of Pyogenic Meningitis	2,525.00
Mrs. Lionel Sutro—For The Lionel and Florentine Scholle Sutro Fellowship	2,000.00
Dr. Ralph Colp—For Research Work on the Physiology and Pathology of the liver and gall bladder.....	2,000.00
Mrs. Addie H. Homan—For The Isidore Hershheim Fellowship Fund	1,500.00
Anonymous—For Special Purposes.....	1,500.00
"A Friend"—For a Fellowship in Gynecology; to commemorate the 70th birthday of Dr. Joseph Brettauer.....	1,200.00
Estate of William I. Spiegelberg—For The Mount Sinai Hospital Fund for Medical Education.....	1,000.00 ✓
Dr. B. S. Oppenheimer—For The Arterio-Sclerosis Fund.....	785.94
Arthur Lorsch—For The Arthur Lorsch Fellowship Fund.....	750.00
Nelson I. Asiel—For Cancer Research.....	500.00
Ernst Rosenfeld—For Intravenous Therapy Research.....	500.00
Committee of Medical Research of the Americal Medical Association—For studies on the Rous Sarcoma by means of the Schwartzman phenomenon	400.00
Committee of Medical Research of the Americal Medical Association—For the development of a method for the estimation of bile salts in body fluids.....	350.00
Mrs. Janet C. Dillenberg—For The Research Fund.....	250.00
Charles Klingenstein—In memory of Mr. Fred H. Greenebaum—For Ear Pathology Research.....	200.00
Paul Rosenthal—In memory of Mr. Fred H. Greenebaum—For Ear Pathology Research.....	200.00
Carried forward.....	\$83,860.94

DONATIONS AND LEGACIES FOR SPECIAL PURPOSES DURING YEAR 1933

(Continued)

Brought forward.....	\$83,860.94
Ernst Rosenfeld—In memory of Mr. Fred H. Greenebaum—For Ear Pathology Research.....	200.00
A. H. Cronk—For the Research Fund.....	150.00
Arthur Lorsch—For The Hospital Bulletin.....	133.74
Isaac Pfeiffer—For Special Nurses Unemployment Fund.....	100.00
Mrs. Fannie C. Korn—For The Research Fund.....	100.00
Smith Periodical Fund—For The Dr. Abraham Jacobi Library Fund	50.00
Mrs. Laura A. Friesner—In memory of Marian B. Schwarz— for Ear Pathology Research.....	50.00
M. Singer & Sons—For The Research Fund.....	50.00
Miss Evelyn Rosenfeld—In memory of Dr. Alexis V. Mosch- cowitz—For Non-Budgetary Purposes in the Children's Pavilion	25.00
First New Sandez Society, Inc.—For The Research Fund.....	25.00
Mrs. J. C. Morgenthau and Miss F. A. Rose—In memory of Dr. Alexis V. Moschcowitz—For the Children's Pavilion.....	20.00
Arthur Lorsch—In memory of Oscar E. Rosenheim—For Non- Budgetary Purposes	15.00
Arthur Lorsch—In memory of Isabelle Tuska—For Non-Bud- getary Purposes	10.00
Mrs. Ethel Franklin and Mrs. Irma Lowenstein—In memory of Eileen Barron—For Non-Budgetary Purposes in the Chil- dren's Pavilion	5.00
Dorothy Loewi—In memory of Dr. Alexis V. Moschcowitz— For the Children's Pavilion.....	5.00
Total	<u><u>\$84,799.68</u></u>

TRUST FUNDS FOR SPECIAL PURPOSES

Florette and Ernst Rosenfeld Foundation—Founded for the establishment and support of a Department for Radium and Radiotherapy.	
Contributions	\$76,000.00
All Income to December 31st, 1933.....	34,703.87
	<u>110,703.87</u>
Cost of Installation of Equipment, Cost of Radium and maintenance of the Department of Radium and Radio- therapy to December 31st, 1933.....	62,292.10

ENDOWMENTS FOR SPECIAL PURPOSES

Benjamin Altman Fund	\$100,000.00
Established by provision in the will of Benjamin Altman; one-half of the income to be utilized to defray expenses of the Neurological Department, the remainder for the general purposes of the institution.	
Marjorie Walter Goodhart and Florence Henrietta Walter Children's Clinic Endowment	100,000.00
Founded by their parents, Florence B. and William I. Walter; income to be used for the purposes of Children's Clinic.	
Marjorie Walter Goodhart and Florence Henrietta Walter Memorial Fund	25,000.00
Established by provision in the will of Miss Rosie Bernheimer; income to be applied towards the running expenses of the Children's Clinic.	
Babette Lehman Fund	100,000.00
Founded by Mrs. Babette Lehman; income to be utilized for the advancement of preventive medicine.	
Louis W. Neustadter Fund	100,000.00
Founded by provision in the will of Mrs. Henry Neustadter; distribution of income to be made annually on the 16th day of March, a portion to needy and indigent patients in the Hospital on that date, the remainder for the general purposes of the Hospital.	
Mount Sinai Hospital Fund for Medical Education	50,000.00
Joseph F. and Zillah Cullman contributed \$25,000.00 as a nucleus of said fund, and \$25,000.00 contributed by the estate of Henry P. Goldschmidt; the income to be used to defray expenses arising out of clinical lectures, demonstrations and conferences, and for cognate purposes.	
Alfred A. and Ruth M. Cook Fund	50,000.00
Founded by Alfred A. and Ruth M. Cook; income to be applied to special experimental work in the Social Service Department.	
Mr. and Mrs. Charles Klingenstein Fund	44,000.00
Helen B. Millhauser Fund	31,000.00
Jacob Mayer Fund	30,000.00
Founded in memory of Jacob Mayer for equipping and maintaining a pneumonia room.	
George Blumenthal, Jr. Fellowship Fund	25,000.00
Founded by Mrs. Florence Blumenthal; income to be applied to the maintenance of two Fellowships in Pathology.	

ENDOWMENTS FOR SPECIAL PURPOSES

(Continued)

Harriet Meyer Memorial Fund	\$25,000.00
Founded by Eugene Meyer; income to be used for experimental work in the Social Service Department.	
Alice Goldschmidt Sachs Endowment Fund	25,000.00
Established by provision in the will of Alice Goldschmidt Sachs; income to be used for medical education.	
Etta C. Lorsch Memorial Fund	24,000.00
Established by provision in the will of Etta C. Lorsch (\$10,000.00); by members of the Board of the Social Service Auxiliary (\$10,000.00); and by many of her friends (\$4,370.00); income to be disbursed by the Social Service Auxiliary for the special country care of children.	
Ambulance Fund	20,000.00
Established by Murry Guggenheim; income to be applied toward the maintenance of the ambulance.	
Murry Guggenheim Scholarship Fund	20,000.00
Founded by Murry Guggenheim; income to provide medals and twelve scholarships of \$100 each annually to nurses of The Mount Sinai Hospital School of Nursing.	
Moritz Warburg Social Service Fund	20,000.00
Founded by Felix M. and Paul M. Warburg; income to be applied to the work of the Social Service Department.	
Emanuel Van Raalte Endowment Fund for Medical Education	20,000.00
Legacy; Income to be used for medical education.	
Robert and John Kaufmann Vacation Fund	11,000.00
Founded by Max Kaufmann; income to be used for providing vacations, preferably for crippled children.	
Theodor Escherich Fellowship Fund	10,000.00
Founded by an anonymous donation; income to be applied to the maintenance of a Fellowship in Pathology.	
Moses Heineman Fellowship Fund	10,000.00
Founded by Moses Heineman; income to be applied to the maintenance of a Fellowship in Pathology.	
Dr. Henry Koplik Fund	10,000.00
Established by provision in the will of Dr. Henry Koplik; income to be disbursed by the Social Service Department and devoted solely to the care of infants and children, whose parents are unable to pay ward fees.	

ENDOWMENTS FOR SPECIAL PURPOSES

(Continued)

Eugene Meyer, Jr. Fellowship Fund	\$10,000.00
Founded by Eugene Meyer, Jr.; income to be applied to the maintenance of a Fellowship in Pathology.	
William Henry Welch Lecture Fund	10,000.00
Established by Dr. Emanuel Libman; the income to be used to provide lectures to be named after Dr. William Henry Welch of Johns Hopkins University.	
Emil Wolff Social Service Fund	10,000.00
Established by Emil Wolff; income to be applied to the work of the Social Service Department.	
Charles and Camilla Altschul Fund for Nursing in Wards	5,000.00
Founded by Charles and Camilla Altschul; to defray the expense of special nursing in the wards.	
Isaac C. Bishop Fund	5,000.00
Established by provision in the will of Morris Bishop; income to be used for the relief, care and benefit of poor patients suffering from cancer.	
Dr. Abraham Jacobi Library Fund	5,000.00
Established by the Board of Trustees of the Mount Sinai Hospital to commemorate the eightieth birthday of Dr. Abraham Jacobi; income to be applied to the purchase of books for the Hospital Library.	
Edward Gamaliel Janeway Lecture Fund	5,000.00
Founded by an anonymous donation; income to be utilized to bring important investigators to Mount Sinai Hospital to present the result of their work.	
Fannie C. Korn Fund	5,000.00
Founded by Mrs. Fannie C. Korn—In memory of Henry Korn; for the establishing and maintaining of a splint and apparatus room for the Orthopedic Service.	
Mount Sinai Hospital Alumni Fund	4,600.00
Donation of Dr. H. F. L. Ziegel; income, and if necessary, capital, to be expended in defraying part or all of the cost of caring in private rooms of the Hospital for members of the Associated Alumni of Mount Sinai Hospital, the expenditures for any one case not to exceed \$200.	
Morris Littman Social Service Fund	3,000.00
Established by provision in the will of Morris Littman; income to be applied to the work of the Social Service Department.	

MEDICAL RESEARCH FUNDS

S. S. Prince Research Fund	\$100,000.00
Established by provision in the will of S. S. Prince; income to be used for research work.	
Henry and Emma Rosenwald Foundation	100,000.00
Established by provision in the will of Mrs. Emma Rosenwald; the income to be used for research work. If such work becomes impracticable or inadvisable, the income is to be used for any other purpose designated by the Trustees.	
Kops Foundation for Pathological Research	70,000.00
Income to be used from time to time for special work in the Pathological Department, under the direction of the Board of Trustees, preference to be given to research.	
The Lorsch-Sachs Endowment Fund for the Promotion of Medical Research	60,000.00
Created by Josephine Lorsch, Nellie and Harry Sachs in memory of Albert Lorsch, Jenny and Sigmund Lorsch; income to be used for the study of some promising scientific problems, especially for research work bearing upon the origin and cure of cancer.	
Max Nathan Laboratory Fund	30,000.00
Established by his wife and daughters; the income to be used primarily towards the payment of salaries in the Laboratory Research Department.	
Eugene Littauer Research Fund	25,000.00
Founded by Eugene Littauer in memory of Nathan Littauer; income to be used for medical research work.	
Elias Asiel Research Fund	21,000.00
Founded by Irma A. Bloomingdale and Nelson I. Asiel; income of which is to be applied to the payment of salaries or fellowships in the research work of the Pathological Department.	
Rosie Bernheimer Memorial Fund	10,000.00
Established by provision in the will of Miss Rosie Bernheimer; income to be used for clinical research work.	
Morris Fatman Medical Research Fund	10,000.00
Founded by Morris Fatman in memory of Solomon A. Fatman.	
Morris J. and Carrie Hirsch Fund	10,000.00
Established by Walter A. and Steven J. Hirsch in memory of their parents; income to be devoted to work in connection with the study of cancer.	

MEDICAL RESEARCH FUNDS

(Continued)

Etta C. and Arthur Lorsch Fund	\$10,000.00
Founded by Etta C. and Arthur Lorsch; income to be devoted to Laboratory research work.	
Elsie and Walter W. Naumburg Fund	10,000.00
Established by Mr. and Mrs. Walter W. Naumburg; income to be used exclusively for Chemical Research at Mount Sinai Hospital.	
Virginia I. Stern Fund	10,000.00
Legacy; income to be used for medical research work.	
Herman Younker Fund for Clinical and Pathological Research	10,000.00
Established by Mrs. Herman Younker; income to be used exclusively for clinical and pathological research.	
Joel E. Hyams Fund	10,000.00
Established by provision in the will of Rosalie Hyams; income to be devoted to research work in cancer.	
Leo L. Doblin Endowment Fund for Research Work	9,250.00
Legacy; income to be used solely for research work in the pathological laboratory (On account of \$10,000.00 legacy).	
Arthur E. Frank Medical Research Fund	7,500.00
Established by provision in the will and in memory of Arthur E. Frank; the income from this fund is to be devoted to Laboratory research work, preferably in connection with the study and cure of cancer.

TREASURER'S REPORT

To the President and Board of Trustees:

Gentlemen:—I have the honor to submit the following report of receipts and disbursements during the fiscal year ending December 31st, 1933:

CURRENT ACCOUNT RECEIPTS

Receipts from:

Private Pavilion Patients	\$287,445.34	
Semi-Private Pavilion Patients	122,842.28	
Ward Patients	39,089.45	
Maintenance for Patients treated under Workmen's Compensation Law	6,454.24	
City of New York for Part Maintenance of Free Ward Patients	237,903.30	
Out-Patient Department	46,197.15	
Private Patients for Support of Special Nurses	58,149.00	
Patients' Supplies	6,255.21	
Operating Room	54,212.50	
Radiograph	18,376.25	
Radiotherapy	4,319.00	
Radium	205.50	
Electro-cardiograph	1,911.00	
Laboratories	37,860.00	
Basal Metabolism	581.00	
Transfusion	6,092.90	
Telephone and Telegraph	2,773.90	
Total Income		930,668.02

Contributions:

Federation for the Support of Jewish Philanthropic Societies	57,313.00	
United Hospital Fund	37,988.74	
Adolph Lewisohn, for the Maintenance of the Pathological Laboratory	5,000.00	
Donations	1,390.00	
Total Contributions		101,691.74

Permanent and Endowment Fund Income:

Permanent Fund	47,370.23	
Endowment Fund	16,843.75

		142,162.90
Total Receipts		<u>\$1,595,652.96</u>

* To Cover Deficit of Operation in 1933.

TREASURER'S REPORT

STATEMENT OF CURRENT ACCOUNT DISBURSEMENTS

DURING THE YEAR ENDING DECEMBER 31st, 1933

Administration:

Salaries and Wages of Officers and Clerks.....	\$65,785.80
Telephone Wages	8,613.77
Salaries of Custodians	7,200.00
Pensions	3,720.00
Telephone Service	17,299.13
Stationery and Printing	5,049.09
Miscellaneous	990.47

Total Administration	108,658.26
----------------------------	------------

Professional Care of Patients:

Clinical Departments:

Salaries of Physicians	21,886.13
Salaries of Nurses	37,119.61
Salaries of Druggists	10,418.53
Wages of Orderlies	29,594.63
Salaries and Wages—Follow-up	9,371.46
Salaries and Wages—Clinical Secretaries	11,672.23

Supplies:

Apparatus and Instruments	16,123.89
Clinical Thermometers	768.92
Suture Material	7,006.35
Rubber Goods	5,679.33
Dressings and Bandages	18,707.66

PERMANENT FUND

Received for Endowment of Wards, Rooms and Beds.....	\$2,695,235.07
Cash and Securities on Hand.....	1,188,736.88
*Deficit in Permanent Fund, December 31, 1933.....	\$1,506,498.19

* This amount has been borrowed from the Permanent Fund mostly to provide for deficits in current expenses and in part for payment of real estate acquired for Hospital purposes. It is hoped that unrestricted donations and legacies, to enable repayment of this loan, will be received within a reasonable period of time.

COMPARATIVE STATEMENT OF STATISTICS

For the Year Ending December 31st, 1933

And the Year Ending December 31st, 1932

HOSPITAL PATIENTS

GENERAL WARDS AND PRIVATE ROOMS

	1933	1932
Patients in hospital at beginning of fiscal year.....	538	548
Patients admitted during year.....	13,797	13,689
Total number of patients treated in hospital during year (Emergency Ward not included).....	14,335	14,237
Remaining in hospital at end of fiscal year.....	564	538
Patients discharged during year:		
Well or Improved.....	10,975	9,951
Unimproved	1,969	2,943
Died	827	805
Total	13,771	13,699
Maximum number of patients on any one day.....	634	592
Minimum number of patients on any one day.....	460	408
Average number of patients per day.....	560	531
Average hospital days per patient.....	14	14
Mortality rate for the year (including deaths which occurred on day of admission).....	5.77	5.65
Distribution of days of hospital care for the year:		
General Wards—free to patients.....	130,426	120,258
General Wards—part free to patients.....	24,496	29,145
Semi-Private Pavilion patients.....	23,951	18,200
Private Pavilion patients.....	25,468	26,893
Total	204,341	194,496
Maintenance days (patients and employees included)....	595,110	612,486
Percentage of total number of patients treated in various divisions:		
General Wards	78.84	80.75
Semi-Private Rooms	9.48	7.28
Private Rooms	11.68	11.97
Patients treated in Emergency Ward.....	12,979	11,109
Disposition of applications received during the year:		
Admitted to General Wards as free to patients.....	9,024	8,682
Admitted to General Wards as part free to patients	1,849	2,392
Admitted to Semi-Private Rooms at rates below cost	1,312	985
Admitted to Private Rooms.....	1,612	1,630
*Not admitted for various reasons.....	5,636	3,230
Total Applications	19,433	16,919
Total number of patients admitted since the hospital was founded.....	361,637	347,840

* See following page.

COMPARATIVE STATEMENT OF STATISTICS

(Continued)

	1933	1932
*Reasons for non-admission to Wards:		
Offered admission but refused.....	165	253
Referred to District Staff for care.....	317	435
Lack of room—referred elsewhere.....	361	212
Out of Borough—no room.....	8	22
Able to pay for private care.....	17	24
Minor ailments	2,901	1,634
Chronic incurable diseases.....	1,053	285
Alcoholism	47	13
Contagious diseases	156	90
Infectious diseases	247	173
Pregnancy	95	33
Disturbing mental disorders.....	269	56
Total	5,636	3,230

DISTRICT MEDICAL SERVICE

	1933	1932
Applicants for admission visited at home.....	292	421
Patients cared for at home.....	25	14
Total number of patients visited	317	435
Total number of visits made by physician.....	341	464

Disposition of applicants for admission visited at home:

Admission to hospital recommended.....	78	99
Admitted (included in general hospital statistics)....	37	68
Declined admission	41	31
Not at home when doctor called.....	14	28
Minor ailment—treated at home.....	34	131
Referred to other institutions.....	10	34
Unsuitable for hospital.....	147	107
Referred to Out-Patient Department.....	9	22

OUT-PATIENT DEPARTMENT STATISTICS

	1933	1932
**Total consultations	289,649	224,200
Total prescriptions	126,807	109,288
Total new cases treated.....	37,465	37,149
Out-Patient Department Days.....	302	304
Daily average prescriptions	420	360
Daily average consultations	850	738
Average daily attendance of physicians	100	106
Average daily attendance of nurses	26	23
Average daily attendance of volunteer aids	30	18
Maximum consultations on any one day.....	1,279	979
Maximum prescriptions on any one day.....	693	664

** The 1933 total includes for the first time, visits to the Follow-up Clinics, Radiotherapy Department, Occupational Therapy Clinic, Children's Health Clinic, Roentgenology Department, Cardiographic Laboratory and Basal Metabolism Laboratory. These were registered and reported elsewhere before the renovation of the Out-Patient Building.

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

To save duplication of reports and to lower costs of printing, the medical activities of the individual out-patient clinics, previously embodied in this report, will be found this year in the Report of the President of the Medical Board; matters relating in the main to the social service aspects of the work will be found in the Report of the Social Service Department.

The outstanding event in the Out-Patient Department during the year was the return to the renovated Dispensary Building on May 1st. This was the culmination of a program of planning, rebuilding and expansion of this department covering nearly three years of time. The details of the alterations, carried out in several stages, were covered in reports of preceding years. It is worthy of mention, however, that when the alterations had been nearly completed, unexpected difficulties were encountered when the old foundation footings were found to be settling and endangering the entire structure. The means taken to overcome this danger and the engineering ingenuity displayed in suspending this huge building in the air, while new concrete and steel foundations were sunk to bedrock beneath the building, thirty or more feet below the surface, would make an interesting and dramatic story of difficulties found and overcome. Of more human interest, however, are the increased opportunities of service to the many sick poor living in the neighborhood of the Hospital, which this renovated building has made possible.

The Hospital's western frontage on Fifth Avenue faces Central Park and abuts the fine dwellings and apartment houses reaching to the north and south, but the dispensary on Madison Avenue looks toward the east, where within the space of a square mile, more than a quarter of a million of under-privileged people live under conditions which, in too many cases, are below the level of healthy existence. This huge population has come to look to The Mount Sinai Hospital for the medical care which it cannot buy. One has but to see the daily line of applicants in the admitting room to be convinced that here, certainly, there is a minimum of dispensary abuse. More than half of them are unable to pay the nominal dispensary fee; many are on emergency relief rolls.

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

The importance of the economic factor in health and sickness is illustrated further by our experiences in the metabolism clinic, where the outstanding problem for the year was of a social and economic nature. A survey showed that the average diabetic patient had less than \$1.50 per week for food expenditure, and that over eighty-five per cent. of the patients registered in this clinic depended on home relief for their food supply. The cost of a diabetic diet cannot be kept under \$2.00 per week and racial dietetic peculiarities increased the difficulties. The problem was attacked in two ways; first, by education, and second, by urging on the home relief agencies of the city the necessity of increasing the allowance to these patients. With the aid of the Dietary Department, a diet was developed that would supply adequate nutritional elements to a family of five within the limits of the allowance made by the various relief organizations. A food exhibit was prepared and demonstrated to all patients. Teaching classes were conducted in order to instruct the patients in the use of cheaper foods, and purchasing lists were given to all. It is now hoped that by the end of the next year these various measures, plus the additional State relief funds, will help solve the problem. The dietary exhibit was found to be of such general interest that it was displayed in the main floor waiting room for the benefit of all dispensary patients.

To describe the many new benefits of the renovated building, its plan and design, its modern equipment and its practical functional arrangements, would require too much space; it will suffice to say that badly needed additions to space and equipment were made possible by the changes and by the use of several floors in the adjoining building. Among the many improvements is the central record room with its mechanical conveyors. This has proved to be a large factor in changing the character of the out-patient service. With the additional facilities it was possible to modify the restrictions on admissions which were dictated mainly by space limitations. As a result, although the renovated building was open for only eight months of the year, more than 30,000 additional visits were made possible. The totals listed in the statistical section show an increase of more than 60,000 visits, but the second 30,000 visits represent patients new to the Out-Patient Department but not to the Hospital, for the consolidation and centralization of the clinic services permitted, for the first time, the handling of visits to certain departments (Radiotherapy,

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

Roentgenology, Electrocardiograph, Follow-Up, Occupational Therapy, Children's Health, etc.) which were previously centered in other parts of the Hospital and reported elsewhere. The daily number of visits reached a maximum of 1,279 on December 2nd, 1933. A more complete statistical summary can be found in the statistical section, beginning on page 69.

While the capacity of the dispensary for service has increased, it is still necessary in some clinics to limit the admission of applicants to numbers which can be properly served. Rejections of applications are also made because of residence outside of the district, or because the Hospital is not prepared to render certain kinds of service; an example is obstetrics. In only a few cases is the ability of an applicant to pay for private care found to be a cause for rejection; inquiry into these cases shows that not a few apply in ignorance of the charitable purposes of the dispensary and with no desire to take advantage of the staff.

This report, though brief, cannot be concluded by the chairman without referring gratefully to the enthusiastic and loyal service rendered by the staff of volunteer physicians, volunteer aides, nurses and all others who have helped to make this humanitarian service possible. Their contribution to the health of the Hospital's beneficiaries cannot be measured by figures nor repaid by mere thanks.

Respectfully submitted,

ERNST ROSENFELD,

Chairman, Committee on Out-Patient Department.

REPORT OF COMMITTEE ON LABORATORIES

The report of the Committee on Laboratories is brief this year to aid in the reduction of the size and cost of the printed Annual Report; its brevity, however, does not mean that the routine work and the scientific activity of the Laboratory suffered any diminution in amount or kind. On the contrary, there was the same intense interest and continued productivity as before, as evidenced by publication of 51 papers, some arising wholly from Laboratory activities, others being the fruit of projects carried on in collaboration with various clinical services and departments. Space limitations permit reference to but a few of the Laboratory activities.

Of special interest was the expedition to Louisiana in order to determine the therapeutic efficacy of the typhoid serum, a development arising from the discovery of the Shwartzman Phenomenon. This will form the basis of a special report which will be published jointly with representatives of the United States Public Health Service who assisted in the clinical supervision of this work. A résumé of this work has shown that the serum was of definite therapeutic value, bringing about improvement in approximately twenty-five per cent. of the patients to whom it was administered. With improved concentration methods, the value of this treatment should increase in the future.

Another development was the organization of the so-called "liver group," consisting of 15 physicians cooperatively studying the physiology, pathology, chemistry and bacteriology of the liver, together with the clinical records of Hospital patients with liver disease. Up to the present, aberrations in the functions of the liver have been recognized rather late in the clinical history of a given case. This is due to the fact that available laboratory methods have not been sufficiently delicate to detect the earliest evidences of liver disease. It is hoped with the development of the work by this group that it will be possible to recognize the earliest deviations from normal in the functions of the liver and lead to improvements in the therapy of liver disease.

The generous support of rheumatic fever investigations made available by a grant from the Littauer Foundation during the last five years has now come to an end. In the report sent to the Littauer Foundation it was pointed out that 26 articles have been

published on this subject or are in manuscript form. Approximately 3,000 specimens have been collected, carefully studied and cross-indexed with the result that there is now available a valuable teaching collection in the field of cardio-vascular pathology.

The observations in connection with the snake venom treatment of a variety of diseases have been continued. Encouraging results are now being obtained by the employment of this treatment in the pre-operative preparation of patients with jaundice. One of the dangers of operating on patients with jaundice has been the uncontrollable hemorrhages occurring in such cases. While it is too early to make definite statements along these lines, it appears that this treatment controls the condition.

Other works worthy of note are the discovery of a new, simple, inexpensive and accurate method for measuring the circulation time, and the observation of the reduction in blood volume following bilateral cophorectomies. The latter work suggests the possibility that there exists a hormone which controls blood volume.

The renovation of the old Laboratory Building now under way will help to relieve the present cramped condition of the laboratories. It should bring considerable relief to the crowded laboratories for neuropathology and endocrinology and to other laboratories whose work is held back by space limitations.

Respectfully submitted,

GEORGE B. BERNHEIM,

Chairman, Committee on Laboratories.

REPORT OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

TO THE BOARD OF TRUSTEES OF THE MOUNT SINAI HOSPITAL:
Gentlemen:

The fifty-third year in the history of the School of Nursing has been one of boundless opportunity for service, since never in the history of our Hospital has the need for medical, social and nursing service been greater.

The service in certain departments of the Hospital during the past year has been somewhat decreased, while in others it has been greatly increased, necessitating an increased amount of nursing service. The Out-Patient Department is an outstanding instance of such growth as it has been nearly doubled in size. As a result of these changes, medical and nursing care can now be given under wonderfully improved facilities.

The constant demands made for more beds in the Semi-Private Pavilion necessitated the opening of two more floors. Here again the nursing service had to be radically increased in order to meet Hospital needs. The nursing service in this department affords to student nurses the opportunity for experience of a different type from that available in other departments in caring for a variety of unsegregated services. The Group Nursing Service continues to be increasingly popular with patients, doctors, and the graduate nurse group, although the present economic situation restricts its rapid development. In spite of this fact we are all convinced that this type of eight-hour nursing service has a great future.

In 1931 the daily average of the School of Nursing was 350, which number included a daily average of 43 probationers. Our total daily average for 1933 has been approximately 304, including a daily average of 40 probationers. This reduction in the number of student nurses is the result of a deliberately planned policy on the part of the Board of Directors, because of their desire to help the unemployment situation by turning out smaller graduating classes, thus lessening the competition with graduate nurses who are already having difficulty in securing work. The school will at present continue its policy of holding down on the number of students admitted. The result has already proved helpful and cannot fail to be increasingly so to the graduate nurse group.

REPORT OF SCHOOL OF NURSING

The year as a whole has been a difficult one so far as nursing service is concerned. The heavy program of the school, with its many opportunities for valuable clinical services which we attempt to give each student, further complicates the situation. The most careful planning and greatest cooperation on the part of all groups are required in order to successfully complete the combined program of nursing service and educational work.

At the March, 1933 meeting of the Board of Directors, it was voted to discontinue the practice of granting to student nurses an allowance of \$8.00 a month during their first year of training. It was further decided that for the present time the allowance would be continued during the second and third years. It was also voted to establish a registration and matriculation fee of \$50.00 for all students admitted with the September, 1933 division and thereafter. The greatly increased cost of educating the student nurse, the shortened hours of service given in the Hospital, and the large number of students who, after availing themselves of the residential and educational privileges of the school sever their connection either voluntarily or at request during the first year, made these changes of policy advisable.

Through savings effected by these changes it has been possible to increase the educational group by the addition of two full-time ward instructors, and to strengthen and stabilize the nursing service as a whole by adding to the number of graduate general duty nurses, and by increasing the number of nurse helpers to relieve the student nurses of a large amount of routine non-nursing duties. Thus it is possible for them to spend their hours of duty in the actual performance of bedside nursing service for patients.

The educational program of the school the past year has embraced 7,725 hours of actual instruction, over seventy per cent. of which was given by the instructors and the nursing staff. There have been few changes in the actual teaching program except those in the department of nursing practice. In this department during the past year the actual teaching and supervision of nursing procedure on ward units was increased from 780 to 2,000 hours. The direct application of classroom instruction to ward practice under capable and intelligent direction and supervision should bring about marked improvement in the character and quality of the nursing done by student nurses, not only in the Hospital but also in whatever community they may serve after graduation.

An interesting study made during the past year indicates that during the three years spent by students in this school, the actual number of hours devoted to nursing service on the wards in special Hospital departments, or in affiliated or elective services totals about 6,800. The amount of instruction and supervised practice given each student exceeds 1,000 hours. The relationship of nursing practice to theoretical instruction, therefore, approximates an average of one to seven. While this ratio is not yet altogether adequate, still when we review the history of the past twenty-five years and consider that at the beginning of that era nurses were lucky if they were having a weekly average of two hours of uninterrupted instruction, we realize that much progress has been made.

There have been few changes in the personnel of our nursing group during the past year. Miss Ruth Goebel was engaged to replace Miss Marie Mourer as Medical Supervisor. Miss Minnie Struthers has returned to her position as Assistant to the Practical Instructor, while Miss Sara Clanton and Miss Margaret Skaling have been appointed to fill the two new positions as Ward Instructors.

On behalf of the Board of Directors, and personally, I wish to pay a tribute to our capable and efficient Superintendent of Nurses, Miss Elizabeth A. Greener, and to the faculty of the school who by their efficient work, loyalty, and understanding have made it possible through a difficult period successfully to carry out the heavy combined program of nursing service and instruction of students in a school such as ours.

As usual, Miss Addie Wood and the Dietary Staff of the Hospital have stood gallantly by. The dietary program which is being carried out both in the Hospital and the Out-Patient Department is one that has gained steadily in scope each year. Its educational value not only to patients and nurses but also throughout the community, can hardly be overestimated.

It is with a feeling of deep regret that I report the demise of Mr. Emil S. Levi, who had been a director for many years.

It was with very deep regret that in April last the Board of Directors accepted the resignation of Mr. Philip Goodhart, who for many years had been one of its staunchest and most reliable

members. In accepting Mr. Goodhart's resignation it was resolved by the Board to elect him to honorary membership.

The Alumnae Association of the School of Nursing continues to grow, its present membership being approximately 700 members. The Association has again carried on a splendid piece of welfare and relief work during the past year among those of its own members who are handicapped, unemployed or in need.

The report of the Registry for private duty nurses for the past year shows a daily average enrollment of 331 nurses, of which number 20 are honorary. Being an honorary member of the Registry means that the nurse in question, after thirty years of service, is granted full registry privileges without the payment of dues. Five thousand eight hundred calls for nurses were received during the year, which number as compared with the previous year showed an increase of nearly 700 calls. At the present moment much of the lack of employment among the private duty nurses is due to the very short periods of service for which they are retained.

The extra-curricular activities of the school, under the direction of the Student Council, assisted by the faculty advisers and the Physical Director have included many happy and interesting social hours, with large and small parties, dances, etc. The tennis courts, as usual, have provided a great outlet for activity of the outdoor type.

The Director of the Hospital, Dr. Joseph Turner, and his assistants, have again given us their valued assistance and understanding support in every way during a difficult and trying year.

Once again on behalf of the Board, I wish to thank the members of the Medical Board and Staff who have given so generously of their time, knowledge, and skill to our nursing group in periods of illness. We are especially grateful to Doctors Eliasoph, Zeman and Klingenstein. Only those closely affiliated with the school realize how many hours of valuable service are freely bestowed during the year.

It is a great satisfaction to mention that although there has been considerable illness during the past year it has been almost entirely of a minor character, with a decided reduction of the actual number of days illness as a whole. The number of days

REPORT OF SCHOOL OF NURSING

illness per nurse has averaged eight and a half ; the daily average of student nurses off duty because of illness was eight.

In the month of February, 1931, a group of 60 students was admitted to our School of Nursing ; the following September 102 more students were enrolled, making the total admissions for the year 162. On February 8th, 1934, 87 students, representing fifty-four per cent. of the total number admitted, graduated from the school. This group truly represents the "survival of the fittest" and they deserve much credit and commendation for their fine spirit, splendid efforts, and excellent work during their three-year course of training.

In this day and age a well qualified registered nurse must be prepared to meet many new and special demands for extremely technical service, demands which have arisen in the past fifteen years as necessary qualifications in connection with the rapidly changing program being carried on by the medical profession. It is at all times the purpose of the School of Nursing and its Directors to select its students most carefully, to eliminate early in their nursing career those who are not properly qualified for this highly specialized type of work, and to send out into the community well-qualified representatives who shall be fine women, excellent nurses, and good citizens.

HUGO BLUMENTHAL,

*President of The Mount Sinai Hospital
School of Nursing*

SPECIAL FUNDS OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

Albert W. Scholle Memorial Fund	\$40,000.00
Founded by William and Frederic Scholle as a tribute to the memory of their father, to provide a vacation and recreation fund for Mount Sinai Hospital student nurses.	
Estelle and Hugo Blumenthal Scholarship and Graduation Fund	35,000.00
Founded by Estelle and Hugo Blumenthal to provide an annual scholarship to the student of the graduating class chosen for special fitness to advance in the profession of nursing by taking a Post Graduate course at Columbia University. This fund also provides a prize of \$15.00 to each graduating student.	
Emil Berolzheimer Memorial Fund	20,000.00
Founded by Mrs. Emil Berolzheimer in memory of her husband, Emil Berolzheimer; the income to be used for higher education of students.	
Murry Guggenheim Scholarship Fund	20,000.00
Established in 1905 by Murry Guggenheim; income to provide annually twelve scholarship awards of \$100.00 each to students who have shown exceptional ability during the year.	
Jacques D. Wimpfheimer Memorial Fund	10,000.00
Founded by Charles A. Wimpfheimer in memory of his son, Jacques D. Wimpfheimer. Any student requiring financial assistance during training may call upon this fund.	
Charles A. Wimpfheimer Emergency Relief Fund	2,500.00
Established by Charles A. Wimpfheimer; income and, if necessary, principal not to exceed \$100.00 in any one year to be used for the relief of members of the Alumnae Association.	
Lillie Stern Scholle Pleasure Fund	9,000.00
Founded by Albert W. Scholle; the income to be used largely to defray the expenses of parties, dances and social gatherings of the students.	
Sick Nurses Fund	5,000.00
Established by Directors of the School and the Trustees of the Hospital and contributed to by them from time to time; income and principal to be used to defray the expenses of graduate nurses and students while sick and not confined in Mount Sinai Hospital.	
Mr. and Mrs. Sam S. Steiner Fund	5,000.00
Founded by Mr. and Mrs. Sam S. Steiner in memory of their beloved son, William J. H. Steiner; the income to be used for the relief of needy graduate nurses of the School.	

SPECIAL FUNDS OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

(Continued)

Carrie M. and Gustav Blumenthal Graduating Class Prize Fund	\$5,000.00
Established by provision in the will of Gustav Blumenthal; income to be distributed annually as a prize or prizes among the graduating class in such manner as the Directors may from time to time deem advisable.	
Kalman and Harriet F. Haas Fund	3,000.00
Founded by Kalman Haas; the income to be used for the general purposes of the School.	
Carrie Untermeyer Fund	2,600.00
Founded by Mrs. Carrie Untermeyer. To establish an award of \$100.00 annually to the student graduating who has the best record for kindness and proficiency in actual bedside nursing.	
Solomon and Betty Loeb Fund	2,500.00
Founded by Solomon Loeb; income to provide annual prizes to students.	
Educational Fund	2,500.00
Founded by Mrs. Berthold Levi in memory of Berthold Levi; the income to be used for higher education of students.	
Mr. and Mrs. Morris Fatman Relief Fund for Graduate Nurses	2,500.00
Founded by Mr. and Mrs. Morris Fatman; income to be used for the relief of graduate nurses.	
Eugene Meyer, Jr. Library Fund	2,000.00
Founded by Eugene Meyer, Jr.; the income to be used to supply books and magazines for the school library.	
Amy C. and Fred H. Greenebaum Fund	2,000.00
Established by Mr. and Mrs. Fred H. Greenebaum; income to be used for an annual award to the most deserving student nurse in any class.	
Isabella Freedman Fund	1,500.00
Established by Mrs. Isabella Freedman; the income to be used for one or two awards to students in the graduating class who have shown marked ability, proficiency and interest in their work.	
Daniel Kops Prize Fund	1,000.00
Founded by Employees of the House of Kops in memory of Daniel Kops; the income to be applied to the awarding of a prize to the nurse who holds the best record for bedside nursing and kindness to patients.	
Pension Fund of the Mount Sinai Alumnae Association	200,000.00
Established to provide pensions to nurses after many years of service.	

REPORT OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

TREASURER'S REPORT

Statement of Receipts and Disbursements as of December 31st, 1933.

Receipts from:

Federation	\$171,604.69	
Registry Fees	3,525.00	
Matriculation Fees	4,040.00	
Sundry Receipts	328.16	
Permanent Fund Income	765.31	
Endowment Fund Income	125.00	
Mount Sinai Hospital, for 1933 Deficit	15,343.47	
Total Receipts		<u>\$195,731.63</u>

Disbursements:

Payroll:

Nurses	24,926.58	
Graduate Nurses	87,133.16	
Assistants	10,982.32

REPORT OF THE SOCIAL SERVICE DEPARTMENT

TO THE BOARD OF TRUSTEES OF THE MOUNT SINAI HOSPITAL:

Gentlemen:

During the past year the Social Service Department has been obliged to assume unusually heavy responsibilities and has experienced great difficulty in confining its activities to actual medical social service. It has been a constant struggle to secure the bare necessities of life for our patients, and much of our workers' time has been spent in trying to accomplish this. Due to the economic instability of our patients and their families, as well as to the unstable condition of the social agencies, much effort was expended in seeing that at least a minimum standard of living was provided, upon which we could base the necessary medical social care.

Many of our patients have struggled along on their greatly reduced earnings and have managed to meet ordinary expenditures, but have not been able to meet the additional expenses incurred by illness. The case load of our workers has been so large and the relief obtainable so inadequate, that constructive social work has been almost impossible in many instances. The staff has been keenly aware of their responsibilities and in spite of seeing so much suffering and extreme want, their morale has remained unshaken.

We took on 8,202 new cases in 1933, an increase of 1,140 over last year. We reopened 294 and closed 1,344 more cases than in the previous year. These figures show a tendency to retain cases for a shorter period of time, made necessary by the larger number referred to us. Notwithstanding this fact, we note an increase of 39 full study and treatment cases. We added a new heading this year to our statistical report "contacts with patients only". This figure, 20,743, shows the contacts our workers made on other than social service cases. There were 3,880 more visits made outside of the Hospital, making the total number of home visits, 21,372. About the same number of reports was sent to social agencies as last year. 1,507 patients were sent for convalescent care, 237 more than last year, and a total of 5,010 referred to other social agencies, an increase of 1,201 over the previous year.

Our aim in dealing with many patients who are unemployed is to rebuild and foster morale and health so that when there is a revival of industry they may again take their normal places. Our social workers feared that there would be many who will be unable to resume their work because they have become so despondent and apathetic, and for this reason we thought that a workroom, to which some of the most depressed could come several hours a day, would encourage them and bring back the work habit which many seemed to be losing rapidly. This workshop was started last November as a temporary measure during this unemployment emergency. The expenses entailed have been met by voluntary contributions from a few interested persons. Miss Edith Sachs has devoted so much time and effort to this undertaking as to assure its success.

An important innovation was made on the Medical Wards—one of the adjunct physicians makes rounds during the visiting hours accompanied by the social worker. The doctor, in the presence of the social worker, discusses the medical and social situation with the patients' families, which makes excellent cooperation possible.

Through the generosity of Mrs. Lewis M. Bloomingdale we had the use of Elm Ridge Cottage from January to May 15, for a selected group of patients in need of convalescent care, rest and building up. Twenty young women had the privilege of being Mrs. Bloomingdale's guests, spending an average of three weeks under her hospitable roof, and being nursed back to health in ideal surroundings.

Requests for extra nourishment and convalescent care for malnourished children have been received more frequently from physicians on the Pediatric Service. There was a fifty per cent. increase in the amount of milk given to the children referred from the afternoon clinic alone. Efforts were made to give special care to a group of children suffering with rheumatic infections upon their discharge from the Hospital. We sent fourteen children to convalescent homes for an extended period, three months or more, others being supervised at home if conditions were satisfactory and the parents cooperative. The little patients showed marked improvement under this careful follow-up.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

During the summer we sent 633 children, 3 working boys, 19 working girls, and 97 mothers for vacations. The children were examined by Dr. Sidney D. Leader, who made the same classifications as in previous years. Fifteen of the asthmatic children, who were not acceptable at regular camps, were again sent to two private homes where their activities and diets were carefully supervised.

Through the generosity of Mrs. Max J. Breitenbach we were again able to have the Max J. Breitenbach Cottage at the United Vacation Home in Long Branch. 117 children and 97 mothers were greatly benefited by this delightful vacation.

The remodeled Out-Patient Department has brought about several changes which have had a direct effect upon our department. A graduate nurse was assigned to the Skin Clinic, relieving the social workers of much clerical work and clinic management, thus giving the workers more time to advise and interpret the doctors' recommendations to the patients during the clinic sessions. This has made it possible for the third worker to devote some of her time to the cases referred from clinics which have no social worker or to act as a substitute when a worker is ill. The workers in the Adult and Children's Cardiac Clinics are still in full charge of the clinic management and during clinic sessions cannot devote much time to social problems. The Children's Cardiac Clinic was transferred at the end of December to more spacious quarters in the Out-Patient Department Annex. The charts, formerly kept in the Social Service office, are now placed in the Central Record Room of the Adult Out-Patient Department.

The dietitian in the Out-Patient Department has been very helpful in aiding us to work out diets for diabetics, gastric cases and others suffering from diseases needing special dietetic care. As most of our families have been living on a very inadequate subsistence level, it is quite impossible for them to provide for extra dietary needs. We have therefore been called upon to furnish a great many special diets during the year.

A change in the daily program of the social workers in the Mental Health Class was put into effect last October. As a result, the doctors and workers are able to discuss more fully the cases

presenting acute problems, as well as some of the broader aspects of social psychiatry. Another advantage of this new arrangement is the opportunity for the workers to give more time to field work.

The worker in the Orthopedic Clinic reports that there has been an increase in the number of patients with foot trouble because of their inability to secure proper shoes, and because of excessive walking due to lack of carfare.

In the Adult Out-Patient Department our workers are in the clinics while they are in session; otherwise they interview all clients in the Social Service offices of the Out-Patient Department Annex. The new central record system facilitates the work of the Social Service Department.

The plan inaugurated during the Fall of 1930 for the Staff Educational program is still being adhered to. Three members of the staff have been instructed by a weekly tutorial conference with the Director of Staff Education. There has been a weekly staff conference from October through May which all members of the staff attend.

We have continued to give a series of lectures to the student nurses and are indebted to the following speakers who have graciously volunteered their services: Dr. Ira S. Wile, Associate Pediatrician, Mount Sinai Hospital; Mrs. Edith Shatto King, Director of the Social Service Exchange of the Welfare Council; Mrs. William G. Lewi, in charge of Social Service, Home for the Aged and Infirm Hebrews; Mr. Ralph Astrofsky, Secretary, Committee on Homeless Men, Jewish Social Service Association; Miss Helen M. Harris, Director of Union Settlement; Miss Florence Marshall, Manhattan Trade School for Girls; Mr. Abraham Goldfeld, Supervisor of Lavanburg Homes; Miss Henrietta Additon, Crime Prevention Bureau; Miss M. McMahon, Industrial Hygiene Division of the Department of Labor; Mrs. Rachel M. Israel, Superintendent, Solomon and Betty Loeb Memorial Home.

In addition to the inadequate incomes and inadequate housing of our families, our work suffers from a lack of the following facilities: care for chronics in their homes, in hospitals and custodial institutions; free convalescent care for colored patients; a sufficient number of evening clinics for luetic patients; provisions

REPORT OF THE SOCIAL SERVICE DEPARTMENT

for homeless men and women suffering from lues in the infectious stage; preventorium care for children under four years; more visiting teachers for sick homebound children other than cripples; free glasses for school children; and employment for handicapped persons.

The demands for clothing have been unusually large. We gave clothing to 982 individuals and are most appreciative of the assistance given to us by our sewing groups and the Needlework Guild of America.

The number of volunteer workers in the Out-Patient Department increases each year, as more doctors recognize the reliability and intelligence of these assistants. It has been possible to fill doctors' requests for volunteers who have had training in special fields and girls with laboratory experience have been procured in a number of cases. A young woman, who has studied calisthenics in Sweden, helps to conduct the exercising class, and another with literary ability is helping Dr. Globus to edit and launch the new hospital journal. Many positions demand five or six half days a week of the worker, and some require even full time. A large number of clinics are so dependent on the services of their volunteer helpers, that the routine would be severely crippled without their aid.

With much regret we accepted the resignations of Mrs. David Levy and Mrs. John L. Loeb from the Board of Directors of the Social Service Auxiliary, and we were happy to welcome the following new members: Mrs. George Backer, Mrs. Frederick M. Heimerdinger, Mrs. Claude Lazard, and Mrs. Louis M. Loeb.

The ladies of the Board are constantly trying to acquire a more thorough understanding of the social problems of our patients by keeping in close touch with the staff workers and by familiarizing themselves with the different divisions of the Hospital and the work of community agencies. I welcome this opportunity to express my appreciation of their devotion to the work and their financial assistance which has made it possible to carry on a large part of our activities.

Many of the Board members took an active part in the annual campaign of the Federation for the Support of Jewish Philan-

thropic Societies, which supports our work to the best of its ability, and we wish to record our appreciation for the funds allocated to us.

We have worked shoulder to shoulder with the various agencies in the community and are most grateful for their valuable cooperation.

I wish to thank the Board of Trustees of the Hospital and Dr. Turner and his associates for the help and advice which they offered us on all occasions, and make grateful acknowledgment of the excellent work accomplished by Mrs. Mendelsohn and the staff in spite of the many difficulties experienced during the past year.

Respectfully submitted,

RUTH M. COOK,

President of the Social Service Auxiliary.

THE MOUNT SINAI SOCIAL SERVICE AUXILIARY

REPORT OF THE TREASURER

THE MOUNT SINAI HOSPITAL LADIES' AUXILIARY SOCIETY

OFFICERS

MRS. LEOPOLD BERNHEIMER	PRESIDENT
MRS. OSCAR ROSE	TREASURER
MRS. JOSEPH A. ARNOLD	SECRETARY

TO THE BOARD OF TRUSTEES OF THE MOUNT SINAI HOSPITAL:

Gentlemen:

The New Year finds us together again and looking back upon the year that has just passed. 1933 was perhaps in many respects a very satisfactory one for our organization. Our attendance was very good, and the enthusiasm for our work was splendid. We continue to supply in large quantities, the surgical dressings which are so needed. We appreciate the kind thought which prompted the Board to write commending and thanking us for our cooperation.

Unfortunately, I have to report another sad passing of one of our old associates and dear friend. Our directress, Mrs. Martin S. Fechheimer who gave so much of her time and effort is no longer with us.

I am sure that the next year will find us carrying on with the same spirit and wholeheartedness that has always characterized our efforts.

Respectfully submitted,

MRS. LEOPOLD BERNHEIMER,

President.

Extracts from the Constitution on Endowed Beds and Endowments

- A** Contribution of \$2,500 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Life Bed. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the general wards of the main Hospital, free of charge.
- A** Contribution of \$3,500 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Memorial Bed. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the main Hospital, free of charge. Such donor may bequeath that right to a successor appointed by the said donor in his or her last will and testament, or by any other instrument under seal. In the event of such successor being appointed, the rights hereinbefore mentioned shall continue for a period of not over fifty years from the date of such contribution—such period, however, not to end before ten years from the death of the donor.
- A** Contribution of \$5,000 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Perpetual Bed in the Children's Pavilion. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the wards of the Children's Pavilion, free of charge. Such donor may bequeath that right to a successor appointed by said donor in his or her last will and testament or by any other instrument under seal.
- A** Contribution of \$7,500 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Perpetual Bed, but where, under the provision of any will executed prior to March 20, 1921, the sum of \$5,000 or more is bequeathed to the Hospital in payment of any Perpetual Bed, the Board of Trustees may, at their option, accept such sum in payment of such Perpetual Bed. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the general wards of the main Hospital, free of charge. Such donor may bequeath that right to a successor appointed by said donor in his or her last will and testament, or by any other instrument under seal.
- When** a corporation is the donor, the privilege shall expire at the end of twenty-five years from the date of such contribution.
- Tablets** to commemorate the endowment of Life and Memorial Beds shall be placed in the ward selected by the donor, subject to the rules of the Hospital. Tablets for Life Beds shall be maintained during the life of the donor, tablets for Memorial Beds for a period not beyond fifty years from the date of their endowment, such period, however, not to end before ten years from the death of the donor. The endowment of a Perpetual Bed shall entitle the donor, or his legal representative, to have a tablet placed in the ward selected by him, or by them, or to have the endowment recorded on a tablet provided for that purpose in the corridor of the Hospital; such tablets shall be maintained in perpetuity.
- A donor** may change a Life Bed endowed by him or her to a Memorial Bed by making an additional contribution of \$1,000, or to a Perpetual Bed by making an additional contribution of \$5,000, or may change a Memorial Bed to a Perpetual Bed by making an additional contribution of \$4,000.
- No patient** shall occupy a Life, Memorial or Perpetual Bed unless he shall comply with the current rules of the Hospital and be a proper subject for treatment according to its regulations.
- An endowment** for the establishing of any special fund may be accepted by a resolution of the Board of Trustees. Such fund may be created either for a special purpose, in which event the income therefrom shall be devoted to such purpose only, or under the name of one or more persons, in which event the income therefrom shall be devoted to the general purposes of the Hospital. Such endowment funds shall be kept by the Treasurer as special accounts. Contributions to existing funds may be made at any time, but no funds shall be created with an initial endowment of less than Ten Thousand Dollars.

HISTORICAL NOTE

The Mount Sinai Hospital was organized and incorporated in 1852 for "benevolent, charitable and scientific purposes." The work of the Hospital was begun in a small private dwelling on 28th Street, between Seventh and Eighth Avenues, which accommodated 28 patients. The Hospital now has accommodations for 762 patients, not including 18 beds in the receiving ward.

In 1871 the Hospital completed and occupied, at Lexington Avenue, 66th and 67th Streets, a building having a capacity of 200 beds.

The Dispensary, now known as the Out-Patient Department, was inaugurated in 1872.

The clinical departments first organized were those of medicine and surgery; a gynecologist was appointed in 1877.

Mount Sinai created precedents among the hospitals of New York by setting up a distinct pediatric service in 1878 and an otologic service in 1879; the latter was at first combined with, but in 1910 was separated from, ophthalmology and laryngology.

The Mount Sinai Training School for Nurses, in affiliation with the Hospital, was incorporated in March, 1881; the name of the school was changed in 1923 to The Mount Sinai Hospital School of Nursing.

In 1883 a committee was formed to develop a Medical Library.

In 1886 a district medical service was inaugurated.

Provision for the care of private patients was first made in 1886; an intermediate or "semi-private" ward was opened in 1904.

In 1893 a Pathological Department was established, and consultants in dermatology and neurology were appointed.

The corner stone of the group of ten hospital buildings occupying the block bounded by Fifth and Madison Avenues, 100th and 101st Streets, was laid May 22nd, 1901; the buildings were completed and occupied March 15th, 1904, when 500 beds became available for the care of the sick.

A Department of Dietetics was established in 1905.

A Social Service Department was inaugurated in 1906.

A Tuberculosis Clinic was organized in 1908.

The first of a series of "Fellowship" funds was created in 1908 to assist investigators engaged in scientific medical work.

HISTORICAL NOTE

The Hospital's first X-ray machine was installed in 1900. In 1910 a full-fledged Department of Radiology was formed and in 1924 the department was subdivided into separate branches for (a) radiography and (b) X-ray and radium therapy.

In 1910 the three-story Out-Patient Building, which had been completed in 1904 was altered to a five-story building, and the Nurses' Home was enlarged from a six-story to an eight-story building. At the same time new isolation wards were erected on the roof of the Medical Building.

A Dental Department was established for the benefit of in-patients in 1910; this work was extended to the Out-Patient Department in 1925.

An orthopedic surgeon and a physio-therapist were named in 1911.

Roof wards for outdoor treatment were erected on the Medical and Surgical Pavilions in 1912.

The Hospital in 1912 accepted a fund "for the advancement of preventive medicine." A "health class" for children was promptly established.

In 1913 the erection of seven additional buildings south of 100th Street was begun; four of these buildings were occupied in 1915, and three, namely, the Private Pavilion, the Children's Pavilion and the Auditorium, were completed in the spring of 1922. With these additions, the Hospital was able to care for 654 patients.

The first of a series of lectureship funds was established in 1913. These funds provided honoraria for distinguished visiting lecturers.

Electro-cardiography was instituted in 1915.

In 1917, Mount Sinai Hospital became a constituent member of the Federation for the Support of Jewish Philanthropic Societies, which was organized in that year.

Until 1917, tonsilleotomies were performed in the Dispensary, often without anesthesia; in the year mentioned, a "tonsil and adenoid" ward, with a fully equipped operating room, was opened.

A Mount Sinai Hospital Unit, organized as a section of the Medical Department of the United States Army, was sent to France in 1918.

Post-Graduate medical instruction was formally organized in 1923, in affiliation with the College of Physicians and Surgeons of Columbia University.

HISTORICAL NOTE

A permanent fund for the support of medical research was inaugurated in 1925, prior to which research was precariously supported by occasional donations.

The construction of a new school and residence building for the School of Nursing, fronting on 98th Street, between Fifth and Madison Avenues, was begun in 1925 and completed in 1927; the residence accommodates 490 nurses.

The new Semi-Private Pavilion for the care of patients of moderate means was completed and opened to the public in 1931.

Group or cooperative special nursing was introduced for the first time.

A Consultation Service for ambulant out-patients of moderate means was organized in 1931.

Neuro-surgery was included in General Surgery until 1932, when a separate service was created.

The modernization of the Out-Patient Department Building was completed in 1933.

New facilities for Cystoscopy were built and occupied in 1933.

In 1934, the vacant former laboratory on 101st Street, was renovated and restored to use, providing space for a number of exiled German scientists and others.

STATISTICAL SUMMARY

Year	Patients Treated in Hospital	Hospital Days	Consultations in Out-Patient Department	Disbursements for Maintenance of Hospital and Out-Patient Department

PRESIDENT'S REPORT

The unfavorable social and financial conditions dwelled upon in our reports of the last few years are unfortunately still with us and the serious effects on the Hospital become more pronounced the longer this situation remains unrelieved. More demands for free service, less use of our facilities for paying patients, smaller income from investments, shrinkage in voluntary contributions, are some of the items we have to contend with and for which there are no offsets at hand. A larger deficit and a depletion of our meagre reserve fund are consequences of these conditions over which we have no control.

The number of patients treated in the Hospital in 1934 was 14,762 against 14,335 in 1933; patients in the Private Pavilion numbered 1,623 against 1,675 during the previous year; consultations in the Out-Patient Department were 319,003 against 289,649 in 1933.

The number of visits in the Out-Patient Department is the largest ever recorded, and in this Service more than one hundred physicians were daily in entirely voluntary attendance. This represents a most important social contribution by the medical profession to the sick poor of the City and without this help the Hospital would not be in a position to offer this service to the public. In order to prevent abuse of this sacrifice brought by the medical profession, every practical means is taken to exclude from the dispensary those who are not entitled to its service.

The calls upon the Consultation Clinic have again proven that real need existed for its establishment. 1,242 patients were admitted in 1934 against 956 in 1933; and 321 physicians made use of the clinic for the first time, bringing the total number of referring physicians to date to 1,411.

Because a few of our buildings are new we sometimes are prone to forget that the central part of the Hospital was constructed nearly forty years ago, while important additions thereto are from thirteen to seventeen years old. To keep this plant in a safe, sanitary and up to date condition calls for a increasing amount of expenditure for maintenance. To economize unduly in this respect would only accumulate heavier burdens in the future besides lowering the efficiency of the plant. For this reason the following repairs and improvements were undertaken:

New equipment was installed in all pantries and utility rooms in wards M, N, O and P; and to reduce noise many ceilings were treated with sound absorbing material.

PRESIDENT'S REPORT

To supply better working conditions for the Laboratory staff and thus to enable them more efficiently to handle their greatly increased activities, the Laboratory Annex Building was remodeled and new equipment installed.

The engine room had installed in it a new 150-ton refrigerating machine. This was necessary to improve our equipment for conditioning the air in the Semi-Private operating rooms. The Private Pavilion was partly renovated embracing the overhauling and repairing of all equipment as well as the remodeling of all utility room sterilizers.

One of the unexpected costs of the year was that of restoring the Hospital engine room and plant after the flood from the bursting of the water main at Fifth Avenue and 100th Street on the night of December 28, 1933. The loss sustained by the Hospital was in excess of \$100,000, including damage to the X-Ray Museum and Library. The rare plates which were destroyed can never be restored. We feel and are advised that we have a just claim against the City for the amount of this damage and we hope to recover it.

Salaries and wages constitute more than half of the total Hospital budget. The unavoidable reductions made on two occasions in the past three years have been partially restored to certain groups at an annual cost of \$25,000. It is a source of deep regret that a full restoration to the former scale cannot be made at this time, but we can assure all those connected with our working force that one of our greatest concerns is their welfare, and one of our most felt disappointments the impossibility to compensate them more liberally for their conscientious endeavors.

Since a long time, efforts have been made to reduce the long hours of Hospital employees and we have now succeeded to arrange to give a full day off, or its equivalent, to all the employees in every department.

A movement for an eight-hour day for special duty nurses was inaugurated some years ago and has been actively urged by nursing bodies. It is a question which, to a great extent, must be decided by the patients, the doctors and the nurses, and we have therefore arranged that the choice is given to the patients and doctors to employ nurses either on an eight-hour or twelve-hour basis, the compensation to the nurse for the former service being of course less than for the latter.

A Maternity Service is today considered an integral part of every general hospital and without it a hospital is not complete and

PRESIDENT'S REPORT

does not offer all it should to the public, the physicians and the nurses. We have a site available for a maternity building but lack the funds to go ahead. Let us hope that the day is not distant when the generosity of a broad-minded philanthropist will render a great service to the community by making a maternity hospital possible.

Post-graduate instruction given in our Institution continues its progress. The excellence of the courses and the large and richly varied material for teaching attracted 179 physicians who enrolled as post-graduate students. In addition to these formal courses were 298 regular staff conferences. Many of them were open to the medical profession at large. The attendance at some of these conferences, especially the Wednesday pathological conferences, averaged more than 300.

The enlarged Jacobi Library was more freely used by the Medical Staff, interns and post-graduate students.

Our Dietary Department continued the study of low-cost diets of maximum nutritive value and through the Out-Patient Department disseminated this information to the public. In order to correlate this work more closely with the various relief agencies throughout the City, standards were established in conjunction with the demonstrations used in the Out-Patient Department and further by a Joint Committee comprised of city nutritionists and dietitians of the New York Dietetic Association. A demonstration of the final results of the work of this committee was exhibited in our Auditorium by the Mount Sinai Dietary Department for the New York Dietetic Association, the city nutritionists, all relief agencies and social service organizations, with an attendance of over 500.

The result of this work was approved by the Public Relations Committee of the Academy of Medicine and published in their Health Examiner. Pamphlets have been printed for distribution for a nominal sum through the Jewish Social Service Association, and are being used extensively throughout the city.

Legislation, not well considered and hastily adopted, has had a regrettable, adverse effect upon the Hospital. Some of this legislation failed to provide for the exemption of hospitals from taxes to which they should not be subject and which thereby became a direct charge upon philanthropy; it means a charge upon funds for the sick for the benefit of funds for the well in the form of relief.

PRESIDENT'S REPORT

The expenditures for current purposes of the Hospital, including the School of Nursing, the Social Service Department and the Ladies' Auxiliary in 1934, amounted to.....\$1,790,376.93
 Receipts applicable to current expenditures were..... 1,574,060.46
 Leaving a net deficit of..... \$216,316.47

Included in the receipts are the following :

From Federation for The Mount Sinai Hospital Group	\$426,930.80
From the United Hospital Fund.....	35,136.54
From the City of New York.....	164,099.70

Among the lectures given in the Hospital during 1934 by men outstanding in their profession were the following :

Dr. Samuel Bellet of Philadelphia. "Observations on the Use of Chest Leads."

Professor James B. Collip, Professor of Biochemistry, McGill University, Montreal (Welch Lectures). "Recent Advances in the Physiology of the Anterior Pituitary Gland." "Relationship of the Anterior Pituitary to the Thyroid and Adrenal Glands."

Professor Richard Herman Jaffe, Director of Laboratories, Cook County Hospital, Chicago. "Modern Concepts of the Pathogenesis of Progressive Pulmonary Tuberculosis."

Dr. Herrman L. Blumgart of Boston. "Total Thyroidectomy with special reference to selection of cases and their pre-operative and post-operative course."

Professor Edward Charles Dodds, Director of Courtauld Institute, Middlesex Hospital, London. "Some Observations on the Nitrophenols: Experimental and Clinical."

Dr. David Adlersberg, Associate Physician, First Medical University Clinic, Vienna. "Modern Trends in the Dietetic Treatment of Diabetes Mellitus" (with lantern slides).

Mr. Sidney Lamb, M.B.E., General Secretary of Merseyside Hospitals Council, Liverpool, England. "British Hospitals Contributory Funds."

The Hospital again played an important part in the Graduate Fortnight of the Academy of Medicine on the Gastro-intestinal tract. A number of lectures were delivered by members of our own staff during the Graduate Fortnight.

The publication of the "Journal of The Mount Sinai Hospital" was inaugurated. It is a scientific publication of important and interesting case reports. It is edited by a committee chosen by the Medical Board and is at present in charge of Dr. Joseph H. Globus.

PRESIDENT'S REPORT

There are 600 paying subscribers and 150 copies are sent to Libraries and Universities in the United States and abroad.

Great losses have been suffered by us through death which removed from our midst such outstanding figures as Charles A. Wimpfheimer, Dr. Walter I. Highman, Miss Elizabeth A. Greener.

Mr. Wimpfheimer had been a Trustee for over thirty-two years. The Hospital never had a more devoted and generous friend and the Trustees never enjoyed the association of a kindlier, more modest man of excellent judgment. Copy of the resolutions adopted at Mr. Wimpfheimer's demise are printed in this report.

Dr. Highman, Dermatologist to the Hospital, has served the Hospital most faithfully and efficiently for twenty-four years. The welfare of his patients was his greatest concern. Kindliness to the members of his staff was one of his outstanding traits.

Miss Greener, Superintendent of Nurses and Principal of the School of Nursing since 1914, gave twenty years of devoted and efficient service as Head of our Training School. Miss Greener contributed in no small degree to the high standing the School now occupies. With insistent demand for good work by the nurses she combined those human qualities which made her beloved by those she came in contact with and particularly by those whose education was in her hands.

Pressure of other duties caused Mr. Lester Hofheimer to resign as Trustee after twelve years of devoted service. We regret to lose his cooperation in our work.

The following new appointments have been made on the Medical staff:

Dr. Albert A. Berg.....	Consulting Surgeon
Dr. Philip William Nathan.....	Consulting Orthopedist
Dr. Ralph Colp.....	Surgeon to the Hospital
Dr. Abraham J. Beller.....	Associate Surgeon
Dr. John H. Garlock.....	Associate Surgeon
Dr. Seth Selig	Associate Orthopedist
Dr. Benjamin Eliasoph, Associate Physician to Isolation Service	
Dr. Arthur M. Master.....	Associate in Medicine
Dr. David Wexler.....	Adjunct Ophthalmic Surgeon
Dr. Sylvan E. Moolten.....	Adjunct Physician
Dr. Emanuel Z. Epstein.....	Adjunct Physician
Dr. Lester R. Tuchman.....	Adjunct Physician
Dr. William H. Mencher.....	Adjunct Surgeon
Dr. Myron A. Sallick.....	Adjunct Surgeon

PRESIDENT'S REPORT

Dr. Phineas Bernstein	Adjunct Gynecologist
Dr. U. J. Salmon.....	Adjunct Gynecologist
Dr. Edgar M. Bick.....	Adjunct Orthopedist
Dr. George J. Ginandes.....	Adjunct Pediatrician
Dr. P. Goolker	Adjunct Neurologist
Dr. Herman Hennell.....	Adjunct Physician for Chest Diseases
Dr. Charles H. Cohen.....	Adjunct Dentist
Dr. Arthur A. Kulick.....	Adjunct Dentist

Dr. A. A. Berg and Dr. Philip W. Nathan, having reached the age limit, relinquished active service in their departments and became members of the Consulting staff. It is perhaps a reflexion on the sagacity of the rule of age limit when such men as Dr. Berg and Dr. Nathan must give up active work when at the height of their vigor and usefulness and with regret do we see them discontinue that active participation we were so long accustomed to. In the many years Dr. Berg and Dr. Nathan have been connected with The Mount Sinai Hospital in different positions, they have always given wholeheartedly of the best that was in them and we are deeply grateful for it. The Board of Trustees, as a slight expression of their feeling, presented souvenirs to the two new consultants.

For divers reasons, Dr. Paul W. Aschner, Associate Surgeon; Dr. Irving R. Roth, Associate Cardiographer; Dr. Isidor Kross, Adjunct Gynecologist; Dr. Howard E. Lindeman, Adjunct Gynecologist; Dr. Harry Wessler, Associate Physician and Associate Radiologist, and Dr. A. M. Rabiner, Adjunct Neurologist, found it necessary to give up their connection with the Hospital. We assure them of our deep appreciation of the services rendered by them during their tenure of office and we regret not to have them with us any longer.

An outbreak of typhoid fever epidemic occurred in the personnel of the Barnum and Baily Circus in Detroit during last Summer. This gave an unexpected opportunity to test further the value of the serum developed by our bacteriologist, Dr. Gregory Schwartzman. The cases were very severe ones and the result of the use of the serum was highly beneficial to the afflicted and the value of it received further confirmation.

The American Medical Association accords annually one gold medal designated "Class I" for original investigative work. This medal was awarded in 1934 to Dr. Shwartzman for his research work in connection with a new method of creating immunity against bacterial diseases.

PRESIDENT'S REPORT

Mrs. Kurt Simon has been very helpful to the Hospital by boarding the horses required by Dr. Schwartzman for his experiments, which service is gratefully acknowledged.

With great pleasure and deepfelt gratitude we acknowledge the following bequests and donations. A full list of all the benefactions will appear in the printed report:

DEDICATION OF BEDS

In memory of Ludwig and Rebecca Dreyfuss— Founded by provision in the will of Ludwig Dreyfuss. (The bequest from Ludwig Dreyfuss amounted to \$35,000.00, \$10,000.00 of which was for two Perpetual Beds, the remaining \$25,000.00 to be recorded as a legacy.....	\$10,000.00
In memory of Richard and Matilda Sidenberg.....	5,000.00
In memory of Adolph, Charlotte and Mary Arber— Founded in the will of Adolph Arber.....	7,500.00

LEGACIES AND BEQUESTS

Estate of Alfred S. Heidelberg—For the endowment of a ward or for other purposes.....	36,600.73
Estate of Benjamin Stern—On account.....	12,500.00
Estate of Josephine Jacobs.....	2,500.00
Estate of Dr. Alexis V. Moschcowitz.....	2,500.00
Also medical books and instruments.	

LEGACIES AND DONATIONS FOR SPECIAL PURPOSES DURING YEAR 1934

Estate of Charles Strauss—To establish a memorial in memory of his parents, Isaac and Henrietta Strauss for the maintenance of two convalescent rooms attached to the public wards of the Hospital.....	30,000.00
Estate of Charles Strauss—To establish a memorial in memory of his son, to be known as "The Eugene Strauss Endowment Fund for Medical Research," the income to be used for medical research.....	20,000.00

PRESIDENT'S REPORT

Estate of Moritz Rosenthal—For the Moritz Rosenthal Fellowship Fund—Income to be used for medical, surgical, clinical or laboratory fellowships as granted to men selected by the Board of Trustees.....	\$25,000.00
George Blumenthal—For non-budgetary purposes.....	10,000.00
Estate of Albert N. Hallgarten—For the Albert N. Hallgarten Endowment Fund.....	10,000.00
David Schulte—On account of operating Out-Patient Department Dental Department.....	8,000.00
Dr. Ralph Colp—For Research on the Physiology and Pathology of the liver and gall bladder.....	2,000.00
Mrs. Isadore Abrahamson—For the establishment of a Fellowship in Neuro-Psychiatry to be known as the "Dr. Isadore Abrahamson Memorial Fellowship Fund"	2,000.00
Mrs. Addie H. Homan—For the Isidore Hershheim Fellowship Fund	1,500.00
"A Friend"—For a Fellowship in Gynecology—to commemorate the 71st birthday of Dr. Joseph Brettauer	1,200.00
Anonymous—For Cardio-Vascular Research.....	1,000.00
Lionel and Florentine Scholle Sutro Foundation, Inc.—For Arterio-sclerosis Fund.....	1,000.00
H. J. Gaisman—For Gastro-enterology Research.....	1,000.00
Mr. and Mrs. Walter W. Naumburg—For Rheumatic Fever Research	1,000.00
Josiah Macy, Jr., Foundation—On account of \$2,000.00 grant for support of Dr. Schwartzman's investigations on tumors, and in particular of the production of localized necrosis in malignant tumors; and also for the expenses involved in writing a monograph on the phenomenon of local skin reactivity to bacterial filtrate	1,000.00
Mrs. Charles Klingenstein—In memory of her brother, Oscar I. Mayer—For Ear Pathology Research.....	600.00
Nelson I. Asiel—For Cancer Research.....	500.00
Frank Altschul—For Cardio-Vascular Research.....	500.00

PRESIDENT'S REPORT

We wish to express our sincere thanks and assurances of appreciation to:

Judge Proskauer, Waldemar Kops, Dr. Solomon Lowenstein, Arthur Lehman, Samuel Leidesdorf, Lawrence Marx, Paul Rosenthal and Percy S. Straus for their indefatigable and successful efforts in connection with the Federation drive.

The Managers of the United Hospital Fund for the splendid results obtained in the season 1933-1934.

The City Departments for their friendly and valuable cooperation.

Mrs. Alfred A. Cook and her associates in the Social Service work for their continued splendid achievement.

Mr. Hugo Blumenthal, President, and the Board of Directors of the School of Nursing for their great contribution to the care of our patients.

Mrs. Leopold Bernheimer, President of the Ladies' Auxiliary and her associates for their never failing zeal and devotion.

Mr. Alfred Lowenthal for his continued efficient management of the Photographic Department.

The Medical staff under the leadership of Dr. Isidore Friesner and the Administration staff under the leadership of Dr. Joseph Turner, to whom is due to the greatest extent all credit for the high standing of our institution and whose cooperation is fully recognized with the knowledge that our appreciation cannot be translated into words.

The large and ever increasing number of volunteers in many departments whose only payment for loyal service is satisfaction of work well done.

The whole world seems to be in a state of flux. In many quarters of the globe new ways to bring happiness to everybody are looked for, and meanwhile the feelings of uncertainty and fear mingled with despondency appear to have taken hold of a bewildered public. It may be disappointing, but it cannot be wondered at, that these conditions are reflected in our own status as they are in every institution of learning and philanthropy. Let us hope that wise counsel will bring about a satisfactory solution of existing difficulties, that a general joy of living may again supplant the present less happy state of mind of the population, and that The Mount Sinai Hospital may again receive that support of the community which we try so hard to deserve and without which we cannot long exist.

Respectfully submitted,

GEORGE BLUMENTHAL,
President.

RESOLUTION ON THE DEATH OF MR. CHARLES A. WIMPFHEIMER

With more than ordinary sorrow the Board of Trustees of The Mount Sinai Hospital have learned of the death of their associate, Mr. Charles A. Wimpfheimer, who had been a member of the Board since 1902. In all the intervening years, he had proved himself an outstanding friend of the Hospital, giving not only generously of his means, but always interested in every phase of the work of our institution. Innumerable wise decisions of many of the Committees of which he was a member were often due to the soundness of his judgment and his intelligent advice. But his interest lay not only with the institution itself, but also to a large degree with the patients committed to its care.

His loss will be felt for many years, and the beneficial effects of his influence will be felt forever.

To his bereaved family we extend our most sincere sympathy.

In recognition of his services we direct that the flag of the Hospital be flown at half-mast, and that an engrossed copy hereof be sent to his family.

GEORGE BLUMENTHAL,
President.

ARTHUR H. HARLOW,
Secretary.

RESOLUTION ON THE DEATH OF DR. WALTER J. HIGHMAN

The Board of Trustees of The Mount Sinai Hospital have learned with deep regret of the sudden death of Dr. Walter J. Highman. He had been officially connected with the Hospital since 1910, and had, through his conscientious efforts and pleasing personality, risen from his original appointment in the Out-Patient Department to the position of Dermatologist to the Hospital. His loss will be greatly felt, and we extend to the members of his family the assurance of our heartfelt sympathy.

GEORGE BLUMENTHAL,
President.

ARTHUR H. HARLOW,
Secretary.

DEPARTMENT OF GRADUATE MEDICAL INSTRUCTION

Conducted in Affiliation with COLUMBIA UNIVERSITY

(University Extension and School of Medicine)

OFFICERS OF INSTRUCTION, 1934

GENERAL MEDICINE

SAMUEL H. AVERBUCK, M.D.	Adjunct Physician and Research Assistant in Pathology to The Mount Sinai Hospital
GEORGE BAEHR, M.D.	Physician and Associate in Pathology to The Mount Sinai Hospital
MURRAY H. BASS, M.D.	Associate Pediatrician to The Mount Sinai Hospital
DAVID BECK, M.D.	Associate Physician to The Mount Sinai Hospital
SOLOMON S. BERNSTEIN, M.D.	Adjunct Physician to The Mount Sinai Hospital
ERNST P. BOAS, M.D.	Associate Physician to The Mount Sinai Hospital
E. Z. EPSTEIN, M.D.	Adjunct Physician and Research Assistant in Chemistry to The Mount Sinai Hospital
PHILIP FINKLE, M.D.	Adjunct Physician to The Mount Sinai Hospital
ARTHUR M. FISHBERG, M.D.	Associate in Medicine to The Mount Sinai Hospital
JOSEPH HARKAVY, M.D.	Adjunct Physician to The Mount Sinai Hospital
HAROLD T. HYMAN, M.D.	Associate Physician to The Mount Sinai Hospital ; Assistant Professor of Pharmacology in Columbia University
M. A. KUGEL, M.D.	Clinical Assistant in Neurological Out-Patient Department and Research Assistant in Pathology to The Mount Sinai Hospital
HERMAN LANDE, M.D.	Adjunct Physician to The Mount Sinai Hospital
S. S. LICHTMAN, M.D.	Adjunct Physician to The Mount Sinai Hospital
HUBERT MANN, M.D.	Assistant in Medicine for Cardiovascular Diseases to The Mount Sinai Hospital
ARTHUR M. MASTER, M.D.	Associate in Medicine for Cardiovascular Diseases to The Mount Sinai Hospital
HERMANN MOND, M.D.	Associate in Medicine and Research Assistant for Cardiovascular Diseases to The Mount Sinai Hospital
SYLVAN E. MOOLTEN, M.D.	Adjunct Physician and Voluntary Assistant, Department of Morbid Anatomy to The Mount Sinai Hospital
ELI MOSCHCOWITZ, M.D.	Associate Physician to The Mount Sinai Hospital
BERNARD S. OPPENHEIMER, M.D.	Physician to The Mount Sinai Hospital ; Assistant Professor of Clinical Medicine in Columbia University
REUBEN OTTENBERG, M.D.	Associate Physician to The Mount Sinai Hospital
DANIEL POLL, M.D.	Associate Physician to The Mount Sinai Hospital
COLEMAN B. RABIN, M.D.	Adjunct Physician ; Assistant in Morbid Anatomy and Assistant Radiologist to The Mount Sinai Hospital
NATHAN ROSENTHAL, M.D.	Associate in Medicine and Hematologist to The Mount Sinai Hospital
IRVING R. ROTH, M.D.	Assistant Physician and Assistant Pediatrician to The Mount Sinai Hospital
SAMUEL SILBERT, M.D.	Adjunct Surgeon to The Mount Sinai Hospital
SOLOMON SILVER, M.D.	Adjunct Physician to The Mount Sinai Hospital
MARCY L. SUSSMAN, M.D.	Assistant Radiologist to The Mount Sinai Hospital
LESTER R. TUCHMAN, M.D.	Adjunct Physician to The Mount Sinai Hospital
KAUFMAN WALLACH, M.D.	Adjunct Physician to The Mount Sinai Hospital
ASHER WINKELSTEIN, M.D.	Adjunct Physician to The Mount Sinai Hospital
FREDERIC D. ZEMAN, M.D.	Adjunct Physician to The Mount Sinai Hospital

DEPARTMENT OF GRADUATE MEDICAL INSTRUCTION

(Continued)

ENDOCRINOLOGY

BENJAMIN ELIASOPH, M.D.....Associate Physician to Isolation Service to
The Mount Sinai Hospital
ROBERT T. FRANK, M.D.....Gynecologist to The Mount Sinai Hospital
BERNARD S. OPPENHEIMER, M.D.....Physician to The Mount Sinai Hospital;
Assistant Professor of Clinical Medicine in Columbia University
SOLOMON SILVER, M.D.....Adjunct Physician to The Mount Sinai Hospital

GASTROENTEROLOGY

GEORGE BAEHR, M.D.....Physician and Associate in Pathology to
The Mount Sinai Hospital
ALBERT A. BERG, M.D.....Consulting Surgeon to The Mount Sinai Hospital
BURRILL B. CROHN, M.D.....Associate in Medicine to The Mount Sinai Hospital
SAMUEL J. GOLDFARB, M.D.....Associate Radiologist to The Mount Sinai Hospital
EMIL GRANET, M.D.....Senior Clinical Assistant, Medical Out-Patient
Department, The Mount Sinai Hospital
PAUL KLEMPERER, M.D.....Pathologist to The Mount Sinai Hospital
SYLVAN D. MANHEIM, M.D.....Senior Clinical Assistant, Medical Out-Patient
Department, The Mount Sinai Hospital
BERNARD S. OPPENHEIMER, M.D.....Physician to The Mount Sinai Hospital;
Assistant Professor of Clinical Medicine in Columbia University
ASHER WINKELSTEIN, M.D.....Adjunct Physician to The Mount Sinai Hospital

DISEASES OF CHILDREN

MURRAY H. BASS, M.D.....Associate Pediatrician to The Mount Sinai Hospital
ALFRED E. FISCHER, M.D.....Adjunct Pediatrician to The Mount Sinai Hospital
SAMUEL KARELITZ, M.D.....Adjunct Pediatrician to The Mount Sinai Hospital
JEROME L. KOHN, M.D.....Adjunct Pediatrician to The Mount Sinai Hospital
M. MURRAY PESHKIN, M.D.....Assistant Pediatrician to The Mount Sinai Hospital
IRVING R. ROTH, M.D.....Assistant Physician and Assistant Pediatrician to
The Mount Sinai Hospital
BELA SCHICK, M.D.....Pediatrician to The Mount Sinai Hospital
HERMAN SCHWARZ, M.D.....Associate Pediatrician to The Mount Sinai Hospital
IRA S. WILE, M.D.....Associate in Pediatrics to The Mount Sinai Hospital

NEUROLOGY AND PSYCHIATRY

JOSEPH H. GLOBUS, M.D.....Associate Neurologist and Associate Neuropathologist
to The Mount Sinai Hospital
SANDOR LORAND, M.D.....Adjunct Psychiatrist to The Mount Sinai Hospital
C. P. OBERNDORF, M.D.....Associate Psychiatrist to The Mount Sinai Hospital
LEONARD B. ROTHSCHILD, M.D.....Adjunct Psychiatrist to
The Mount Sinai Hospital
DUDLEY D. SHOENFELD, M.D.....Adjunct Psychiatrist to
The Mount Sinai Hospital

GYNECOLOGY

ROBERT T. FRANK, M.D.....Gynecologist to The Mount Sinai Hospital
SAMUEL H. GEIST, M.D.....Associate Gynecologist and Associate in Surgical
Pathology to The Mount Sinai Hospital
MORRIS A. GOLDBERGER, M.D.....Adjunct Gynecologist to
The Mount Sinai Hospital
WILLIAM HARRIS, M.D.....Radiotherapist to The Mount Sinai Hospital
MAX D. MAYER, M.D.....Adjunct Gynecologist to The Mount Sinai Hospital
ISIDOR C. RUBIN, M.D.....Associate Gynecologist to The Mount Sinai Hospital

DEPARTMENT OF GRADUATE MEDICAL INSTRUCTION

(Continued)

OPHTHALMOLOGY

ISADORE GOLDSTEIN, M.D.....OPHTHALMIC SURGEON AND ASSOCIATE IN
OPHTHALMO-PATHOLOGY TO THE MOUNT SINAI HOSPITAL
ROBERT K. LAMBERT, M.D.....ASSOCIATE OPHTHALMIC SURGEON TO
THE MOUNT SINAI HOSPITAL
JOSEPH LEVINE, M.D.....ADJUNCT OPHTHALMIC SURGEON TO
THE MOUNT SINAI HOSPITAL
HENRY MINSKY, M.D.....ASSOCIATE OPHTHALMIC SURGEON TO
THE MOUNT SINAI HOSPITAL
KAUFMAN SCHLIVEK, M.D....OPHTHALMIC SURGEON TO THE MOUNT SINAI HOSPITAL
DAVID WEXLER, M.D.....ADJUNCT OPHTHALMIC SURGEON AND ASSISTANT IN
OPHTHALMO-PATHOLOGY TO THE MOUNT SINAI HOSPITAL

DERMATOLOGY

LOUIS CHARGIN, M.D.....ASSOCIATE DERMATOLOGIST TO THE MOUNT SINAI HOSPITAL ;
ASSOCIATE CLINICAL PROFESSOR OF DERMATOLOGY AND SYPHILOLOGY,
NEW YORK POST GRADUATE MEDICAL SCHOOL, COLUMBIA UNIVERSITY
OSCAR L. LEVIN, M.D.....ASSOCIATE DERMATOLOGIST TO THE MOUNT SINAI HOSPITAL
SAMUEL M. PECK, M.D.....ADJUNCT DERMATOLOGIST AND ASSISTANT IN
DERMATOPATHOLOGY TO THE MOUNT SINAI HOSPITAL
ISADORE ROSEN, M.D.....DERMATOLOGIST TO THE MOUNT SINAI HOSPITAL
MAX SCHEER, M.D.....ADJUNCT DERMATOLOGIST TO THE MOUNT SINAI HOSPITAL ;
ASSISTANT PROFESSOR OF DERMATOLOGY AND SYPHILOLOGY,
NEW YORK POST GRADUATE MEDICAL SCHOOL, COLUMBIA UNIVERSITY

OTOLOGY

JOSEPH G. DRUSS, M.D.....ADJUNCT OTOLOGIST AND ASSISTANT IN OTO-PATHOLOGY TO
THE MOUNT SINAI HOSPITAL

RADIOGRAPHY

ARTHUR J. BENDICK, M.D.....ASSOCIATE RADIOLOGIST TO THE MOUNT SINAI HOSPITAL
SAMUEL J. GOLDFARB, M.D.....ASSOCIATE RADIOLOGIST TO THE MOUNT SINAI HOSPITAL
MARCY L. SUSSMAN, M.D.....ASSOCIATE RADIOLOGIST TO THE MOUNT SINAI HOSPITAL

PHYSICAL THERAPY

FAREL JOUARD, M.D..ADJUNCT PHYSICAL THERAPIST TO THE MOUNT SINAI HOSPITAL

LABORATORY COURSES

JOHN COHEN, M.D.....ASSISTANT IN BACTERIOLOGY TO THE MOUNT SINAI HOSPITAL
LOUIS GROSS, M.D.....DIRECTOR OF LABORATORIES TO THE MOUNT SINAI HOSPITAL
PAUL KLEMPERER, M.D.....PATHOLOGIST TO THE MOUNT SINAI HOSPITAL
SADAO OTANI, M.D.....ASSISTANT PATHOLOGIST TO THE MOUNT SINAI HOSPITAL
MIRIAM REINER, M.S.....ASSISTANT CHEMIST TO THE MOUNT SINAI HOSPITAL
HARRY H. SOBOTKA, Ph.D.....CHEMIST TO THE MOUNT SINAI HOSPITAL

EXECUTIVE OFFICERS, MOUNT SINAI HOSPITAL

JOSEPH TURNER, M.D.....	DIRECTOR
STEPHEN MANHEIMER, M.D.....	ASSISTANT DIRECTOR
JULIUS A. KATZIVE, M.D.....	ASSISTANT DIRECTOR
LOUIS GROSS, M.D.....	DIRECTOR OF LABORATORIES
LEOPOLD JACHES, M.D.....	RADIOLOGIST
GEORGE T. COOK.....	CHIEF CLERK AND AUDITOR
JOHN B. CUBBERLEY.....	SUPERVISING ENGINEER
ISADORE ROGIN, Ph.G.....	CHIEF APOTHECARY
MAY M. SLATOR, R.N.....	SUPERVISOR, OUT-PATIENT DEPARTMENT
MARY R. ERWIN, R.N.....	SUPERVISOR, PRIVATE PAVILION
EDITH G. RYAN, R.N.....	SUPERVISOR, SEMI-PRIVATE PAVILION
FANNY LISSAUER MENDELSON, B.S., R.N.	DIRECTOR OF SOCIAL SERVICE
ADELINE WOOD, B.S.....	SUPERVISING DIETITIAN

OFFICERS, SCHOOL OF NURSING

GRACE A. WARMAN, B.S., R.N.....	SUPERINTENDENT OF NURSES AND PRINCIPAL, SCHOOL OF NURSING
CLARE M. CASEY, B.S., R.N.....	ASSISTANT SUPERINTENDENT OF NURSES
MINNIE STRUTHERS, R.N.....	ASSISTANT PRINCIPAL, SCHOOL OF NURSING
MARGARET LUNDY, R.N.....	NIGHT SUPERINTENDENT, SCHOOL OF NURSING
LILIAN LEESON, B.S., R.N.....	SUPERVISOR OF NURSING EDUCATION
ELIZABETH FITZPATRICK, R.N.....	INSTRUCTOR OF NURSING PROCEDURE
MARION CROZIER, M.A.....	INSTRUCTOR OF PHYSICAL EDUCATION
MAY M. SLATOR, R.N.....	SUPERVISOR OF NURSES, OUT-PATIENT DEPT.
MARY R. ERWIN, R.N.....	SUPERVISOR OF NURSES, PRIVATE PAVILION
EDITH G. RYAN, R.N.....	SUPERVISOR OF NURSES, SEMI-PRIVATE PAVILION
NELLIE PORTER, R.N.....	SUPERVISOR OF NURSES, OPERATING ROOM
RUTH GOEBEL, R.N.....	SUPERVISOR OF NURSES, MEDICAL PAVILION
MARY CRYER, R.N.....	SUPERVISOR OF NURSES, SURGICAL PAVILION
CORA BALL, R.N.....	SUPERVISOR OF NURSES, CHILDREN'S PAVILION
LILLIE DIXON	MATRON, NURSES' HOME

REPORT OF THE ACTIVITIES OF THE MEDICAL STAFF FOR THE YEAR 1934

A list of the lectures delivered during the current year will be found elsewhere in the Annual Report.

On the Medical Services, the following studies have either been published or are in the process of publication:

1. Carcinomatous endarteritis of the pulmonary vessels with right heart failure.
2. Role of B. Friedlander in infection.
3. Aplastic anemia.
4. Use of sedimentation rate in office practice.
5. Spleen in subacute bacterial endocarditis.
6. Role of cholesterol and ester in liver disorders.
7. Chronic diseases.
8. Effects of elevated metabolism on the heart of frizzle fowl II, increased ratio of heart to body weight.
9. Medical needs of the aged.
10. Treatment of heart failure.
11. Angina pectoris and heart block as symptoms of aortic stenosis.
12. Transient auriculo-ventricular dissociation with pararrhythmia in a rooster.
13. The application of intravenous drip method to chemotherapy as illustrated by massive doses of arsphenamine in treatment of early syphilis.
14. Studies in prognosis.
15. The therapeutics of the iodides in goiter and allied conditions.
16. Investigation of the cardiac patient as a surgical risk.
17. The differentiation of acute coronary thrombosis from pulmonary embolism.
18. The cause of death in thrombo-angiitis.
19. Traumatic aneurysm of the abdominal aorta.
20. Circulation time in normal children.
21. Heart failure in hypertension.
22. Recovery in subacute bacterial endocarditis.
23. Catalepsy (*flexibilitas cerea*) in a normal child.
24. The use of Govaert's Osmometer to determine osmotic pressure of blood serum, spinal fluid, ascitic fluid, etc.

REPORT OF THE MEDICAL STAFF

25. Metabolism of various types of carbohydrates by S. and R. forms of pneumococcus.
26. Studies in Vitamin C.
27. Bacteriologic studies in cases of arthritis.
28. Relation of the biliary tract to glycosuria and hyperglycemia.
29. Insulin resistance in surgical conditions.
30. Diabetic gangrene; continuation of studies on relationship of gall bladder disease to diabetes.
31. Combined syphilitic and rheumatic diseases of the aortic valve.
32. Gumma of the heart.
33. Report of two rare instances of cardiovascular disease, presumably syphilitic in origin.
34. Associated disorders of the liver and kidney.
35. Diagnostic value of the circulation time as compared to the basal metabolic rate in the diagnosis of Graves' Disease and allied conditions.
36. Skin reactions to tobacco antigen in smokers and non-smokers.
37. Skin hypersensitiveness to extracts of tobacco leaf, pollen and seed and to other allergens in normal men and women smokers.
38. Discussion of relationship between psychic factors and skin reactions.
39. Gastro-intestinal manifestations in sensitiveness to foods and tobaccos.
40. Hyperergic and anergic reactions in vascular disease.
41. Work on immunologic studies of tobacco antigen.
42. The treatment of typhoid fever with antitoxin and anti-typhoid serum.
43. Diffuse capillary angiitis and its relationship to lupus erythematosus.
44. Origin and significance of tyrosinuria in liver disease.
45. A new procedure for the estimation of bile salts in body fluids based on bile salts hemolysis.
46. The influence of bile salts on the nervous system, following intraspinal usage.
47. Metabolism of bile salts in heart and liver disease.
48. Salvarsan therapy and liver disease.

REPORT OF THE MEDICAL STAFF

49. Thrombo-phlebitis of the pulmonary veins.
50. Pyelophlebitis complicating lung abscess.
51. A topographical classification of lung carcinoma with reference to clinical manifestations or operability.
52. A text book of Pathology for Nurses.
53. Section of Roentgenology of Chest for Volume on Clinical Roentgenology (Nelson's Loose-Leaf System).
54. Pathogenesis of lung abscess.
55. Pathological, clinical and roentgenological studies on carcinoma of lungs.
56. Blood amylase response to acetylcholine and its modifications by physostigmine and atropine.
57. Avertin anesthesia in normal persons.
58. Enlargement of the heart due to abnormal glycogen storage in Von Gierke's disease.
59. Investigation of blood acetylcholine esterase.
60. Investigation of response to blood amylase to acetylcholine after pancreatectomy.
61. Recurrent laryngeal paralysis in left ventricular failure.
62. Circulatory dynamics in myocardial infarction.
63. Circulation time in failure of the left side of heart.
64. Mediastinal gumma with ulceration into trachea.
65. Circulatory dynamics in lobar pneumonia.
66. Circulatory dynamics in shock.
67. Relation of anoxemia to hepatic dysfunction in lobar pneumonia.
68. Distribution of phosphorus compounds in striated and cardiac muscles of the dog.
69. Phosphorus compounds in the perfused heart of the dog.
70. Changes in the phosphorus compounds in the perfused hind leg of the dog.
71. Compounds of phosphorus in the heart and striated muscle of the dog; methods of determination and normal values.
72. Serum phosphate changes induced by injections of glucose into dogs under various conditions.
73. Observations on muscle metabolism.
74. The Ketogenic Diet.

REPORT OF THE MEDICAL STAFF

75. Relationship of biliary obstruction to Diabetes Mellitus.
76. Effect of acid ash high-vitamin diets on renal calculi.
77. In vitro experiments on bacteriostatic effect of ketone bodies.
78. Effect of low carbohydrate diet on creatin and uric acid excretion.
79. Effect of supplementary vitamin D. feedings on hyperparathyroidism.
80. Hodgkin's Disease of the lung.
81. The bactericidal power of blood.
82. Bacterial invasion of the blood stream.
83. Essential fructosuria.
84. A new danger in dinitrophenol therapy.
85. Arteriosclerosis.
86. Transplantation of the adrenal cortex for Addison's Disease.
87. Histology of the coronary arteries and their branches in the human heart.
88. The lesions in the coronary arteries and their branches in rheumatic fever.
89. The psychological background in peptic ulcer.
90. Bleeding erosions of the duodenum as distinguished from true peptic ulcers.
91. The dynamics of hypertension of the cerebro-spinal circuit.
92. The mechanism of the lowered basal metabolism in hypoproteinemia.
93. Primary amyloidosis as a nosological entity.
94. The osmotic tension of body fluids.
95. Studies in viosterol poisoning.
96. Eunuchoidism.
97. Cushing's Basophilism.
98. Diencephalic Graves' Disease.
99. Special study of patients with Graves' Disease.
100. Benign or idiopathic pulmonary hemorrhage.
101. Embryogenesis of the human lung.
102. Studies on the lining cells of the pulmonary alveoli.
103. Azygos lobe in a fetus.
104. A case of tuberous sclerosis with renal tumor.

REPORT OF THE MEDICAL STAFF

105. Newer physiology of muscle applied to problems of the circulation and heart.
106. Shwartzman phenomenon in lung.
107. Adenoma of bronchus.
108. Psychogenic factors in peptic ulcer.
109. Carbohydrate studies in hyperchromic anemias.
110. Studies in thrombo-endocarditis and serous membrane involvement.
111. The coronary arteries in the human heart, both in the normal and the rheumatic state.
112. Status of cholesterol in the blood in hepatic and biliary diseases.
113. Diabetes insipidus; its differentiation from hysterical polyuria.
114. Malnutrition and hyperchromic anemia.
115. Neurogenic diabetes.
116. The psychogenic origin of organic disease.
117. Allergy to life; an interpretation of the neurotic constitution.
118. Spirituality and science.
119. A simple apparatus for fixation of lungs in the inflated state.
120. The mechanical production of cavities in isolated lungs.
121. Symptomatology of putrid lung abscess.
122. Dissecting necrotic pneumonia complicating pancreolihthiasis.
123. Streptotrichotic Suppuration of the lung following aspiration of a foreign body.
124. Secondary acquired hemolytic icterus.
125. Cardiac arrhythmias in Graves' Disease.
126. Amyloid goiter in generalized amyloidosis.
127. Hypertrophic jejuno-ileitis; tuberculous or non-specific.
128. Subphrenic abscess secondary to unrecognized perforation of the gall bladder.
129. Subacute enterococcus endocarditis.
130. A case of pseudo- or transient arteriosclerosis
131. Meningococcus arthritis and meningitis.

On the Pediatric Service, investigation of many problems which have been started has been continued. Among such are the bacteriology of the pneumonia of children with particular reference to the significance of the various types of pneumococcus; the study of tracings of the heart sounds; hemocytological studies in a large series of allergic children; the study and significance of mould sensitization; investigation of the insensible perspiration in childhood; the prophylaxis of measles. Papers are to appear or have appeared on the following subjects:

A fifteen-year follow-up study of nephrosis; post-pneumonic residual inflammation.

A clinical study of heart disease.

Ichthyosis vulgaris.

Basal metabolism of tuberculous children with report of a case.

Venoclysis in pediatric practice.

Globulin extract of immune adult serum in the prophylaxis of measles.

A review of the cases of pneumococcus peritonitis admitted to the Hospital.

A study of the fundus of the eye of the new-born.

Sugar tolerance in sibilings of diabetic children.

Hypertrophy and atrophy of subcutaneous tissue following insulin.

Special studies of various conditions have also been made on a number of the Surgical Services:

A clinical experimental study of bile salts in normal and abnormal conditions.

The relationship of cholecystitis to hepatitis as demonstrated by a study of the finer histology of the liver cells.

The relation of pancreatitis reflux cholecystitis.

Methods have been developed through which the mortality of acute appendicitis has been appreciably lowered. A new technique of cavity collapsing for pulmonary tuberculosis has been devised. Studies have also been made of the bronchi in pulmonary tuberculosis. A survey has been made of the entire subject of sepsis and of empyemata due to anaerobic organisms. A topographic classification of primary cancer of the lung has also been made.

REPORT OF THE MEDICAL STAFF

The clinical activity of the Neurosurgical Service has been continued at about the same level as that of the preceding year.

On the Gynecological Service, the studies conducted on plastic operations for prolapse of the uterus show that the present technique developed during the last three years, is extremely satisfactory. The number of cases of a hitherto rarely recognized contagious disease, lymphogranuloma, is increasing at the Hospital. Because of a direct infection from mother to child, which came to our notice, the Department of Health has been induced to make this a reportable contagious disease. A considerable number of articles have been published from this Service, some purely clinical, others in direct cooperation between the clinical service and the gynecological research laboratory. The endocrine clinic in the Out-Patient Department is attracting an increasing number of patients from all departments of the Hospital.

On the Ophthalmological Service, the operation devised for vernal catarrh has been perfected and gives promise of being universally adopted. Again a great deal of time has been devoted to the study of plastic surgery, introducing many new features. A department of embryology is being developed. Many studies of pathological material have been made in the Laboratory and papers based upon these studies have been published.

The activity of both the Otological and Laryngological Services in the Laboratory has resulted in the publication during the year of a number of papers based upon the studies of pathological material. An excellent review is also about to be published of cases admitted to the Neurological Service with brain tumors, demonstrating the relationship between the neurological findings and those of so-called functional tests of the ear.

On the Dermatological Service, studies of the research problems have been continued in the Laboratory. Clinically, activity has been evidenced in the study of pemphigus and its treatment with snake venom. An attempt has been made to raise the threshold of sensitization in chronic eczemas by means of hyperthermia. Non-specific therapy of chronic dermatitis has been investigated.

A complete report of the Laboratories will be found elsewhere. The scientific activities of the Laboratories and the cooperation between the clinicians and the laboratory heads has been evidenced

REPORT OF THE MEDICAL STAFF

during the current year by the publication of many papers based upon the investigations carried out.

In the Department of Radiology, a full time post-graduate course in radiology and radiotherapy given in conjunction with several other metropolitan hospitals, has been found to satisfy a long felt need. During the year, studies on osteolytic sarcoma of bone, schirrous carcinoma of the stomach and colon as well as the application of utero-salpinography have been published.

Studies have also been made on radiotherapy in carcinoma of the breast, management of upper respiratory neoplasms, diagnosis and treatment of leukemia, and treatment of epithelioma of the skin.

ISIDORE FRIESNER, M.D.,

President of the Medical Board.

DONATIONS AND LEGACIES FOR SPECIAL PURPOSES DURING YEAR 1934

Estate of Charles Strauss—To establish a memorial in memory of his parents, Isaac and Henrietta Strauss for the maintenance of two convalescent rooms attached to public wards of the Hospital	\$30,000.00
Estate of Charles Strauss—To establish a memorial in memory of his son, to be known as "The Eugene Strauss Endowment Fund for Medical Research"; the income to be used for medical research	20,000.00
Estate of Moritz Rosenthal—For the Moritz Rosenthal Fellowship Fund—Income to be used for medical, surgical, clinical or laboratory fellowships, as granted to men selected by the Board of Trustees.....	25,000.00
George Blumenthal—For Non-Budgetary Purposes.....	10,000.00
Estate of Albert N. Hallgarten—In memory of Adolph Hallgarten—For the Albert N. Hallgarten Endowment Fund.....	10,000.00
David A. Schulte—On account of operating Out-Patient Department, Dental Department.....	8,000.00
Dr. Ralph Colp—For Research on the Physiology and Pathology of the liver and gall bladder.....	2,000.00
Mrs. Isador Abrahamson—For the Dr. Isador Abrahamson Memorial Fellowship	2,000.00
Mrs. Addie H. Homan—For the Isidore Hershheim Fellowship Fund	1,500.00
"A Friend"—For a Fellowship in Gynecology; to commemorate the 71st birthday of Dr. Joseph Brettauer.....	1,200.00
Anonymous—For Cardio-Vascular Research	1,000.00
Lionel and Florentine Scholle Sutro Foundation, Inc.—For Arterio-Sclerosis Fund	1,000.00
H. J. Gaisman—For Gastro-Enterology Research.....	1,000.00
Mr. and Mrs. Walter W. Naumburg—For Rheumatic Fever Research	1,000.00
Josiah Macy, Jr. Foundation—On account of \$2,000.00 grant for support of Dr. Schwartzman's investigations on tumors, etc....	1,000.00
Mrs. Charles Klingenstein—In memory of her brother, Oscar I. Mayer—For Ear Pathology Research.....	600.00
Nelson I. Asiel—For Cancer Research.....	500.00
Frank Altschul—For Cardio-Vascular Research.....	500.00
Committee of Medical Research of the American Medical Association—For studies in the metabolism of the bile salts in health and liver disease.....	400.00
George W. Naumburg—For the equipment of a sound tracing apparatus for the Electro-Cardiographic Department.....	250.00
Mrs. Janet C. Dillenberg—For Research Fund.....	250.00
Sandoz Chemical Works, Inc.—For Studies on the Effect of Ergotamine Tartrate on the Central Nervous System.....	150.00
The Misses Frankenheimer—For Cardiographic Laboratory.....	150.00
Carried forward	\$117,500.00

DONATIONS AND LEGACIES FOR SPECIAL PURPOSES DURING YEAR 1934

(Continued)

Brought forward	\$117,500.00
Doctor Fred S. Mandlebaum Memorial Fund for Books—For the Dr. Abraham Jacobi Library Fund Income Account.....	144.50
Mrs. Bertha Brant—For Research Fund.....	100.00
Employees of A. Wimpfheimer & Brother and the American Velvet Co.—For Non-Budgetary Purposes.....	100.00
Paul Rosenthal—To defray expenses in connection with the exhibit of Dr. Samuel Peck's snake venom work at the American Medical Association Convention.....	100.00

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

The year 1934 represents the first full calendar year of out-patient service in its renovated and enlarged quarters. The improved facilities and the increased space made possible 319,003 patient visits; more than were ever registered before. That so many patients were in need of the medical philanthropy of the Hospital and its Medical Staff is a striking commentary upon economic conditions. None of these patients were able to purchase medical service; this was clearly in evidence in the inquiry made of every new applicant for admission. The feelings of an investigator on observing the stream of patients passing through the waiting room were recorded in his report in the following words:

"The Out-Patient Department is a busy place . . . A number of Out-Patients' records were examined in an attempt to estimate whether clients had been adequately questioned as to eligibility for clinic care. In most of the cases, the evidence of eligibility, as entered, was indisputable . . . Many patients were seen in waiting rooms and clinics . . . Appearances (as far as they may be trusted) indicated a group of low economic status. In general, the clients of this Out-Patient Department impress one as being the type whom donors of charitable funds are desirous of reaching."

Despite the increased facilities referred to above, it was still necessary to turn away a large number of patients, not so many because of economic ineligibility (most of these few applied at the dispensary innocently and in ignorance of its purposes, with no intent to impose upon the Hospital's philanthropy), but because they presented clinical conditions for which the Out-Patient Department is not equipped (maternity, contagious diseases, cosmetic dentistry, etc.), or because the clinic capacity for the day had been reached. It was necessary to apply the district limitations for admission more strictly than before, for it was obviously improper to accept a patient living at a distance for clinic care while at the same time refusing a nearby neighbor because the appointment had been given to the distant applicant.

The central record room, with the mechanical conveyor system connecting it with the patient floors, fulfilled its early promise of usefulness and elicited many commendations from those who recalled and could compare the new service with the former methods of filing of patient records in separate clinics. The new

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

system of special appointments for patients has worked out very well in practice, making unnecessary visits much less frequent and serving to control patients in much the same manner as physicians do in their private practice.

That the Out-Patient Department was able to perform the large volume of recorded work was due in great part to the willing service rendered by the volunteer medical staff, of whom more than 125 were in attendance every day, and also to the increasing number of non-professional volunteers serving in the clinic with no compensation other than the satisfaction derived from doing a good deed. To both groups, we are greatly indebted.

Although the clinic rooms were not planned for extensive medical teaching, they were widely used during the year to give many courses in the formal post-graduate program. The value of these classes was enhanced by the large and richly varied clinical cases available for teaching purposes, and the courses attracted more physicians as post-graduate students than in past years. In addition, clinic staffs organized a number of conference groups meeting informally at the close of the regular clinic session.

In the medical clinics, the most important changes and improvements were as follows:

1. The establishment of a daily Food Demonstration in order to instruct patients on home relief how to feed a family of five people for a week with their limited means, proved to be very valuable in maintaining proper nutrition among the poorest patients in our dispensary. The Home Relief Bureau was greatly interested in the demonstration which has been copied widely by their dietitians and social workers, as well as by the social service departments of other voluntary hospitals.

2. The establishment of a Dietary Instruction Service to which patients can be referred for this purpose from any of the medical or special clinics of the Out-Patient Department. Previously, the patient who required dietetic instructions was handed a printed slip by a busy dispensary physician with limited time to go into detailed instructions. Now, when a special diet is required, the patient is referred to the Dietary Instruction Service as part of the Metabolism Clinic, where the patient is seen by a physician from the clinic. The proper diet is outlined, and adequate instructions are given to the patient by the physician with the assistance of an expert dietitian.

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

The latter, after making inquiries concerning the economic and social conditions under which the patient is living, then instructs the patient concerning the details of the diet, gives her sample menus, and often gives instructions concerning cooking and the proper preparation of food. Above all, she teaches the patient, who must be on a special diet, how to purchase that food without depriving the rest of the family, who may be on home relief, of any part of their minimum food requirements. This Dietary Instruction Service is now one of the busiest and most useful parts of the Medical Clinic. Later it is planned to rotate physicians in the Medical Clinic into this service for periods of two or three months so that they may better familiarize themselves with the subject of dietetics.

3. Since the reconstruction of the dispensary building and the introduction of the central record system, previously referred to, the work of the Medical Clinics has been made so much more efficient and comfortable that it is now attracting the best type of young physicians. Almost every recent graduate of the interne staff has applied for an opportunity to work in the Out-Patient Department. This increase and improvement in medical personnel is true also of all the special clinics of the Out-Patient Department which are now fully manned.

4. Because of this improvement in professional personnel and increase in the number of clinical assistants in the medical clinics, it is possible to rotate a number of clinical assistants from each medical clinic into special clinics for periods of three months. After serving for this period in the neurological, gynecological, hematological, or some other clinic, the clinical assistant returns to the medical clinic and his place in the special clinic is taken by another. This plan serves to staff the special clinics and gives each clinical assistant an opportunity to continue a varied post-graduate medical training.

5. Special clinical opportunities were provided for refugee German physicians. Each of the two afternoon medical clinics has taken a group of six to ten; others were assigned to some of the special medical clinics. Altogether there are nearly forty refugee German physicians working at present in our Out-Patient Department. In the afternoon medical clinic they receive a retraining under the direction of physicians on

the medical services. As they are not as yet licensed to practice medicine in this State, the diagnostic investigation as well as the treatment of the patient, remains under the direct supervision of members of the visiting staff of the Hospital. This opportunity for retraining in medicine is most important for them in order that they may familiarize themselves with American methods of medical practice. Opportunities are also provided for them to attend all the clinics and departmental conferences of the Hospital and to make an increasing number of contacts with American physicians.

6. The plan providing ten beds on each of the medical services for Out-Patient Department cases is now two years old. Patients referred from the Medical Clinic to the Hospital are admitted to these beds. The Associate Physician in charge of the Medical Clinic of the Out-Patient Department and the Adjunct Physician on duty with him in the Out-Patient Department assume responsibility for the diagnostic investigation and the subsequent treatment of these patients; in this manner the same physician who has been responsible for the care of the patient in the ambulatory clinic also takes care of him in the ward. The plan has worked to the complete satisfaction of the patients and physicians.

7. Scientific papers have been written by a number of members of the Out-Patient Medical Clinics on diseases of the heart, metabolism, hematology, gastro-enterology, allergy, and others. The publications are too numerous to list in detail but attention should be called to the fact that the clinical observations upon which the publications were based were made entirely in the out-patient clinics.

The gynecological clinics, particularly those in the morning, devoted to special problems, functioned throughout the year with a great deal of vigor, maintaining the following schedule:

Monday—menopause and bleeding cases.

Tuesday—cystoscopy cases.

Wednesday—endocrinology cases.

Thursday—leucorrhea cases.

Friday—sterility cases.

Saturday—contraceptive, marital adjustment and borderline cases.

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

Seventy per cent. of the gynecological clinic visits were revisits by old patients. Of the 2,808 new patients admitted to the clinic, 414 (14.7%) were admitted to the Hospital for operation. 1,150 patients (11.8% of all visits to the clinic) were referred to other clinics for additional or supplementary diagnostic and therapeutic service.

The growth of the recently established Chest Clinic is shown in the monthly report of attendance beginning with a single visit in January and reaching 58 visits in October. Practically all of the patients were referred from other clinics in the Out-Patient Department. The patients were given a complete study including bronchoscopy and bronchography when indicated. The disposition of the patient was decided upon after consultation with the referring source; some were sent to the Hospital for further treatment, others were returned to the original clinic and some were kept for further care in the Chest Clinic. The administration of pneumo-thorax, formerly performed only in the Hospital, became a routine activity in the clinic and 187 of these treatments were given to 13 patients suffering with bronchiectasis and pulmonary tuberculosis. Members from other medical and surgical services were in frequent attendance for observation and consultation.

In the Neurological Clinic, the number of patients treated continued high; an average of 6 new patients and 20 old ones being seen each afternoon. These patients were divided about equally between organic and psychogenic cases. The staff of the clinic made wide use of the consultation services available in other special clinics, and in its turn, referred a large number of its own patients to the various departments for further diagnostic tests and opinions. At the end of the year, a special conference was held by members of the staff for the presentation of unusual clinic cases.

An increased interest in the Laryngology Clinic was due to the more frequent participation of the Attending Staff in the clinic work. The senior men arranged to come many more days, serving as an aid and inspiration to the younger men. One member of the staff has organized a special group of nose bleeding cases for the study of the effect of snake venom as a therapeutic agent; the results will be published shortly. The relationship of the asthma and sinus diseases was studied by another group, and still another continued the work on the calcium content of pus as an aid in the diagnosis of mastoiditis.

REPORT OF COMMITTEE ON OUT-PATIENT DEPARTMENT

The new Neurosurgical Clinic did not experience a great demand. Cases of this kind, amenable to neurosurgery, are quite uncommon and this clinic has been, and will for another year continue to be in the nature of an experiment.

For the fourth year a series of lectures on Dental Medicine was held as part of the work of the dental department. These lectures were made possible through the cooperation of the physicians and dentists on the Hospital staff, and were well attended not only by the staff of the Hospital but by physicians and dentists from the profession at large.

Respectfully submitted,

ERNST ROSENFELD,

Chairman, Committee on Out-Patient Department.

REPORT OF COMMITTEE ON LABORATORIES

The number of routine bacteriological examinations carried on in the Laboratories during the year 1934 has shown a further increase to approximately 71,000 as compared to 66,000 during the year 1933, 58,000 during the year 1932 and 55,000 during the year 1931. The chief increases have been in surgical pathology as well as in examinations made for the Semi-Private Pavilion. The regrettable decline in the percentage of autopsy permissions obtained during the year 1933 has continued during the year 1934.

TABLE OF LABORATORY EXAMINATIONS

	1934	1933
CENTRAL LABORATORIES:		
Bacteriology	22,403	21,994
Surgical Pathology	4,287	3,761
Morbid Anatomy (Autopsies).....	382	436
Chemistry	11,568	11,045
Endocrinology	1,708	1,783
CLINICAL MICROSCOPY LABORATORIES:		
Out-Patient Department	12,837	11,393
Private Pavilion	8,266	9,821
Semi-Private Pavilion	7,515	5,352
HEMATOLOGY LABORATORY	1,087	996

Fifty-one papers were published during the year 1934. The publications concern themselves with more diversified fields than ever before. The reasons for this are that since the recapture of the Laboratory annex, several of the Laboratory subdivisions have been able to expand their work, and that investigations have been carried on by a number of expatriated German physicians.

Of particular interest in the published work have been additional contributions by Dr. Schwartzman on his phenomenon, reports on the treatment of ulcerative colitis and of vaccination against pneumococcus Type III meningitis; a series of papers from the Department of Endocrinology dealing with improved methods for studying the female sex hormones; reports on amylase in the blood; a number of papers dealing with various forms of heart pathology; continued work on the treatment of hemorrhagic diseases by means of snake venom; a series of interesting contributions

on the pathology of lung abscess; and a series of papers by Dr. Witebsky, dealing with a newly discovered immunological phenomenon which promises to supply important information on the so-called heterophile antigens. An important contribution was the observation by Dr. Hitzig that ether can be used as a method for determining the circulation time to the right heart. This is a fundamental and new observation which is already receiving considerable attention.

Fifteen exhibits were set up at the Seventh Annual Graduate Fortnight, held in the New York Academy of Medicine. Several additional exhibits were set up in Cleveland, Chicago and Atlantic City. It is with pride that we report the award of the Gold Medal Award of the American Medical Association to Dr. Schwartzman. This is the third time that the Laboratories have achieved this distinction.

The teaching program of the Laboratories has increased with 125 of the professional personnel receiving training. Together with the non-professional workers, this makes a staff of approximately 200 during the course of the year. Over 100 lectures were delivered in various institutions by members of the Laboratory staff. This is exclusive of the numerous post-graduate courses, the Clinical-Pathological Conferences and the increased number of intramural seminars held in practically every Laboratory division. Of interest is the stimulating effect of these seminars on the general scientific level of the entire Hospital professional organization, inasmuch as the internes as well as staff members are regularly instructed at these seminars and meetings. That this makes for a closer interlocking of the various parts of the Hospital cannot be denied. In this way, the Laboratories are achieving another very desirable linkage with the wards over and above the clinical and laboratory problems which are jointly investigated.

In the matter of economy it is a pleasure to report that the production by the Laboratories of intravenous glucose, pollen extracts, temperature control tablets and the standardization of drugs, etc., has achieved a gratifying measure of success. This has evidently been recognized by other institutions who have applied to us for instruction along these lines.

Among the technical methods which have been a distinct improvement in Hospital routine has been the operating room service given by Dr. Globus for tumors of the brain. In this

REPORT OF COMMITTEE ON LABORATORIES

manner, speedy diagnoses which are of inestimable value to the surgeon, are rendered in the same manner as has been given in Surgical Pathology for many years. Apart from this, improvements have been made in routine bacteriological technique in the methods of performing a number of chemical determinations as well as in the Department of Hematology.

Generous contributions by the Board of Trustees have made it possible to support a number of expatriated German physicians and to permit them to continue their scientific work in the Laboratories. No less encouraging is the receipt of contributions from a number of private foundations and individuals for the support of our scientific activities. These are listed elsewhere in the printed report.

Respectfully submitted,

GEORGE B. BERNHEIM,

Chairman, Committee on Laboratories.

HONORARY DIRECTOR

PHILIP J. GOODHART

REPORT OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

TO THE BOARD OF TRUSTEES OF THE MOUNT SINAI HOSPITAL:
Gentlemen:

During the past year a total of 136 students was admitted to the School of Nursing, 52 having been admitted in the February division and 84 in the September division. Of these, 47 students, or about 35 per cent., were dropped during the period of probation. The School is maintaining a high degree of selectivity with respect to its student body.

On January 31st, 1935, the School had a total of 246 students, divided as follows:

First year students, 81; second year students, 83; third year students, 82.

There is in all departments of the Hospital a total of 136 graduate nurses, graduates of the School.

The current trend in nursing education is to secure quality of nursing rather than quantity of nurses, thereby tending to relieve unemployment among nurses and a higher degree of efficiency in those who are graduated. This policy is being followed by the Board of Directors of the School and it is felt that it cannot fail to be increasingly helpful both to the nurses who already have graduated and to the public.

The School continues to receive a large number of applications for admission and applications for information with respect to admission. During the past year nearly 4,000 letters of this character were received.

The record of the year 1934 holds a deep note of sadness for both the School and the Nursing Department of the Hospital. Both were deprived by death during the year of two loyal friends.

On July 27th, Miss Elizabeth A. Greener, for twenty years the principal of the School and Superintendent of Nurses, passed away. Her demise was a great loss not only to the School but to the entire nursing profession. Miss Greener had endeared herself to all who knew her and her untiring enthusiasm, charming manner and keen intelligence were always a source of inspiration to students and graduates of the School.

REPORT OF SCHOOL OF NURSING

On November 26th, Mr. Charles A. Wimpfheimer, Vice-President of the School for seventeen years, passed away. Mr. Wimpfheimer was at all times deeply interested in the affairs and welfare of the School and was always ready to help the graduate and student nurses. Neither graduates nor students who knew him will ever forget his many helpful and thoughtful acts.

Due to the death of Mr. Wimpfheimer, the office of Vice-President became vacant, and Mr. Alfred L. Rose was elected to succeed him. The vacancy similarly created on the Board of Directors was filled by the election of Mr. Harold Wimpfheimer, his son.

This year has been an important one in nursing because the Committee on the Grading of Nursing Schools brought its work to a close and turned over the records and data assembled to the National League of Nursing Education. The final report was published in October under the title "Nursing School, Today and Tomorrow." The report summarizes the present opinions of the members on certain problems, makes recommendations and suggestions, and raises questions which need further study. The report clearly shows that although there is unemployment in nursing, there is a dearth of properly trained nurses. It is also pointed out that there is a great need for nurses with broad experience and good basic professional background. The objective of our School is to prepare young women who will have such experience.

The educational program of the School has been successfully carried on by Miss Leeson and her staff. During the year, 10,565 hours of actual instruction were given by instructors, medical and nursing staff, dietitians and the teacher of massage. An improvement was made in the program of study by separating the gynecological lectures under Dr. Salmon from the general surgical course.

On behalf of the Board, I wish to express its gratitude and appreciation to Drs. Zeman, Eliasoph and Klingenstein, and to the many others who have contributed so generously of their medical skill and knowledge in order to maintain the health of the graduate and student nurses.

The Board also takes pleasure in announcing the election of Dr. David Beck to the Medical Board of the School. Dr. Beck has faithfully served as School physician and consultant for eleven years.

REPORT OF SCHOOL OF NURSING

A number of important changes in the graduate nurse staff have occurred during the past year: Mrs. Mary Pursley, Instructor in Practical Procedures, resigned, and Miss Minnie Struthers was appointed to fill that vacancy; Miss Clare Skaling, a ward instructor, was advanced to replace Miss Struthers; the two science instructors, Miss Irene Watt and Miss Elsie Floyd, resigned, and Miss Elizabeth Clanton, a ward instructor, assumed the responsibility of Miss Watt's position, while Miss Floyd's position was and still is being temporarily filled. One of the ward instructor positions was filled by Miss Mathilde Reich and the other by Miss Elizabeth Fitzpatrick, both graduates of our own School.

The physical education program, under the guidance of our Physical Instructor, has provided the right type of physical activity to meet the individual need of each student. Special emphasis has been placed on corrective gymnastics, but basketball, tennis, swimming, dancing, games and other sports have been included in this program.

The students have enjoyed as usual a large number of parties and dances. An outstanding feature of the year was the class day exercises.

As usual, Miss Wood, our Supervising Dietitian, and her staff, have given us their efficient help and have cooperated to the fullest extent in all our social activities.

The Board desires to extend its appreciation and thanks to our entire group of assistants, instructors, supervisors, head nurses and staff nurses, for their conscientious and loyal work. To maintain a good service to patients has been the predominant characteristic of the spirit of the staff.

Miss Mary P. Brown, who has occupied the position of Assistant Superintendent of Nurses for many years, resigned in December to accept the position of Superintendent of Nurses at the Manhattan Eye and Ear Hospital. The vacancy thus created was filled by Miss Clare Casey, one of our own graduates.

On January 1st, 1935, Miss Grace A. Warman, a graduate of the Presbyterian Hospital of New York City and also of the Department of Nursing of Teachers College, was appointed Superintendent of Nurses and Principal of the School of Nursing, thereby filling the position which was left vacant by Miss Greener's death. The Board permitted this position to remain vacant during

the interval because of its desire to benefit both the School and the Nursing Department of the Hospital by the selection of the person best qualified for this important position. In announcing the appointment of Miss Warman, the Board felt that it had thoroughly fulfilled its objective and was happy to welcome her, feeling that her administration in both branches of her office will be progressive and successful.

On February 5th, 1935, the annual commencement exercises of the School of Nursing were held and the fifty-first class of students, 82 in number, was graduated. This class was admitted in 1931 in two sections. The February group numbered 57 and the September group, 99; a total of 156 students.

An unusual feature of this year's exercises was the presentation of service pins to Miss Mary Erwin, Supervisor of the Private Pavilion; Miss May Slator, Supervisor of the Out-Patient Department; and Miss Madeleine Tisch, Head Nurse in the Semi-private Pavilion. These nurses have given to the Hospital, faithful and loyal service for over twenty-five years.

During the year, a study of nursing conditions was made in New York State. The result of this study was that in March, 1934, Dr. Horner, Assistant Commissioner of Higher Education of the State of New York, issued a report in which he suggested remedial measures for nursing education in New York State. Dr. Horner's proposals were acted upon by the Board of Directors of the New York State Nurses' Association, which recommended that action on a moratorium should be postponed, believing that this would be too drastic a step at present, and that the same results can be produced by other methods.

The Board of the State Association approved the principle of licensing all persons who nurse for hire. The Board also felt that if the practical nurse is to be controlled she should be trained, and additional study should be given to the length and subject matter of the course. It was the opinion of the Board of the State Association that the course for the registered nurse should include at least one year of college as a preclinical requirement.

The law requiring nurses to be citizens became effective August 9th, 1934. This law states that "every person admitted to the examination for license as registered nurse in September, 1934, and thereafter, must submit evidence that she is a citizen of

the United States, or has declared her intention of becoming such a citizen. This is true regardless of when the application for admission was filed and applies to those who failed in previous examinations and are taking the examination again. After September 1st, 1935, every applicant for admission to the examination must be a citizen unless she legally declared her intention of becoming a citizen prior to date."

The latest report received from the Alumnae Association, with a membership of approximately 620, shows that as a whole it has had a satisfactory year. The Association has continued to carry on a splendid piece of welfare and relief work among those of its members who are in need, due to illness or unemployment.

The report of the Graduate Nurses' Registry shows the daily average number of nurses enrolled to have been 336. Of the total number of 6,379 calls, only 1,123 were for cases outside of the Hospital. In other words, eighty-two per cent. of all calls were for patients being cared for in our own Hospital.

On December 1st, 1934, rates of special nurses were advanced from \$6.00 to \$7.00 for twelve-hour duty in the Hospital; from \$7.00 to \$8.00 for twelve-hour duty outside the Hospital; and from \$9.00 to \$10.00 for twenty-four hour duty. The rate in the Semi-Private Pavilion for eight-hour group nursing was increased from \$4.25 to \$5.00.

No report of the President could properly conclude without an expression of high appreciation to our Hospital Board, our Medical staff, and our Director, Dr. Joseph Turner, for giving us their valuable assistance in solving our many problems. We accord our grateful thanks.

HUGO BLUMENTHAL,

*President of The Mount Sinai Hospital
School of Nursing*

RESOLUTION IN MEMORY OF
MR. CHARLES A. WIMPFHEIMER

BE IT RESOLVED, That the Board of Directors of The Mount Sinai Hospital School of Nursing record its deep sorrow and regret at the passing of Mr. Charles A. Wimpfheimer, who for more than twenty years served with distinction as a member of the Board of Directors, and for more than fifteen years as Vice-President of the School, giving unstintingly to the affairs of the School his time and attention, and to his Fellow-Directors the pleasure of his warm-hearted collaboration; and,

BE IT FURTHER RESOLVED, That this Board express its sadness and the sadness of each of its members at the loss of a deeply respected and much beloved associate and friend.

HUGO BLUMENTHAL,
President.

EDWIN M. BEROLZHEIMER,
Secretary.

RESOLUTION IN MEMORY OF
MISS ELIZABETH A. GREENER

BE IT RESOLVED, That the Board of Directors of The Mount Sinai Hospital School of Nursing record its deep sense of loss at the passing of Elizabeth A. Greener, who, after more than a decade of notable experience, became the Principal of the School and Superintendent of Nurses in 1914, and had since that date with untiring energy, with matchless ability and understanding, and with unexampled humanity and enthusiasm served the School, its undergraduates, its graduates, its faculties, and its Directors; and,

BE IT FURTHER RESOLVED, That the School has lost a splendid leader. We, who were associated with her for so many years, had learned to admire and respect her, and to value her friendship.

HUGO BLUMENTHAL,
President.

EDWIN M. BEROLZHEIMER,
Secretary.

SPECIAL FUNDS OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

Albert W. Scholle Memorial Fund.....	\$40,000.00
Founded by William and Frederic Scholle as a tribute to the memory of their father, to provide a vacation and recreation fund for Mount Sinai Hospital student nurses.	
Estelle and Hugo Blumenthal Scholarship and Graduation Fund	35,000.00
Founded by Estelle and Hugo Blumenthal to provide an annual scholarship to the student of the graduating class chosen for special fitness to advance in the profession of nursing by taking a Post Graduate course at Columbia University. This fund also provides a prize of \$15.00 to each graduating student.	
Emil Berolzheimer Memorial Fund.....	20,000.00
Founded by Mrs. Emil Berolzheimer in memory of her husband, Emil Berolzheimer; the income to be used for higher education of nurses.	
Murry Guggenheim Scholarship Fund.....	20,000.00
Established in 1905 by Murry Guggenheim; income to provide annually twelve scholarship awards of \$100.00 each to students who have shown exceptional ability during the year.	
Jacques D. Wimpfheimer Memorial Fund.....	10,000.00
Founded by Charles A. Wimpfheimer in memory of his son, Jacques D. Wimpfheimer. Any student requiring financial assistance during training may call upon this fund.	
Charles A. Wimpfheimer Emergency Relief Fund.....	2,500.00
Established by Charles A. Wimpfheimer; income and, if necessary, principal not to exceed \$100.00 in any one year to be used for the relief of members of the Alumnae Association.	
Lillie Stern Scholle Pleasure Fund.....	9,000.00
Founded by Albert W. Scholle; the income to be used largely to defray the expenses of parties, dances and social gatherings of the students.	
Sick Nurses Fund.....	3,000.00
Established by Directors of the School and the Trustees of the Hospital and contributed to by them from time to time; income and principal to be used to defray the expenses of graduate nurses and students while sick and not confined in Mount Sinai Hospital.	
Mr. and Mrs. Sam S. Steiner Fund.....	5,000.00
Founded by Mr. and Mrs. Sam S. Steiner in memory of their beloved son, William J. H. Steiner; the income to be used for the relief of needy graduate nurses of the School.	

SPECIAL FUNDS OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

(Continued)

Carrie M. and Gustav Blumenthal Graduating Class Prize Fund	\$5,000.00
Established by provision in the will of Gustav Blumenthal; income to be distributed annually as a prize or prizes among the graduating class in such manner as the Directors may from time to time deem advisable.	
Kalman and Harriet F. Haas Fund	3,000.00
Founded by Kalman Haas; the income to be used for the general purposes of the School.	
Carrie Untermeyer Fund	2,600.00
Founded by Mrs. Carrie Untermeyer. To establish an award of \$100.00 annually to the student graduating who has the best record for kindness and proficiency in actual bedside nursing.	
Solomon and Betty Loeb Fund	2,500.00
Founded by Solomon Loeb; income to provide annual prizes to students.	
Educational Fund	2,500.00
Founded by Mrs. Berthold Levi in memory of Berthold Levi; the income to be used for higher education of students.	
Mr. and Mrs. Morris Fatman Relief Fund for Graduate Nurses	2,500.00
Founded by Mr. and Mrs. Morris Fatman; income to be used for the relief of graduate nurses.	
Eugene Meyer, Jr. Library Fund	2,000.00
Founded by Eugene Meyer, Jr.; the income to be used to supply books and magazines for the school library.	
Amy C. and Fred H. Greenebaum Fund	2,000.00
Established by Mr. and Mrs. Fred H. Greenebaum; income to be used for an annual award to the most deserving student nurse in any class.	
Isabella Freedman Fund	1,500.00
Established by Mrs. Isabella Freedman; the income to be used for one or two awards to students in the graduating class who have shown marked ability, proficiency and interest in their work.	
Daniel Kops Prize Fund	1,000.00
Founded by Employees of the House of Kops in memory of Daniel Kops; the income to be applied to the awarding of a prize to the nurse who holds the best record for bedside nursing and kindness to patients.	
Pension Fund Mount Sinai Alumnae Association. Approx. 180,000.00	
Established to provide pensions to nurses after many years of service.	

REPORT OF THE MOUNT SINAI HOSPITAL SCHOOL OF NURSING

TREASURER'S REPORT

Statement of Receipts and Disbursements as of December 31st, 1934.

Receipts from:

REPORT OF THE SOCIAL SERVICE DEPARTMENT

TO THE BOARD OF TRUSTEES OF THE MOUNT SINAI HOSPITAL:
Gentlemen:

GENERAL STATISTICS—The volume of work in the department this year has again increased, and a statistical comparison with 1933 may be of interest. There were 8,250 new cases, an increase of 48; 32 fewer cases were reopened; and 170 more closed. There was an increase of 134 "Full Study and Treatment" cases, and the number of "Contacts with Patients Only" exceeded last year's figures by 2,082. Consultations in the Hospital and Out-Patient Department also show a marked increase, the most noteworthy being 754 more consultations with physicians. The fact that 305 fewer outside visits were made is explained by the fact that there were many more consultations within the Hospital and in 1933 we had two assistants from Work Relief. More financial investigations were made than at any previous time, the total number being 13,172, of which 11,823 were interviews in the Hospital and 1,349 were interviews in the homes of our patients. This is an increase of 4,821 over 1933. We referred 2,163 patients for convalescence, of which 1,687 were sent away, an increase of 180 over last year. 515 more patients were referred to other social agencies in the community.

NEW ACTIVITIES—An additional clinic was organized for adult cardiac patients under Dr. Arthur M. Master, and one of the workers of the Children's Cardiac Clinic was assigned to serve it along the same lines as our other cardiac clinics.

Last year we reported that an Emergency Workroom was established in order to keep up the morale of some of the unemployed men and women who had been patients in the Hospital or were attending the Out-Patient Department. This workroom has continued to function very satisfactorily under the efficient guidance of Miss Edith Sachs and a home-making teacher from the Home Economics and Industrial Training Division of the State Education Department. 22 patients are registered in the workroom and the average attendance at the afternoon sessions is 10. One group makes saleable articles for which the patients receive a small remuneration; another group of mothers and young girls is being taught to sew, mend, clean, and renovate old garments. The instructor held classes for our staff and for other employees of the Hospital, which were greatly appreciated.

A cooking class was also conducted by a teacher from the same organization. The class was discontinued after several months, because the mothers had difficulty in having their children cared for at home and the presence of the children at the classes caused too much confusion. Our dietitians in the Out-Patient Department have been very helpful in instructing individual patients, and working out special diets and food budgets for many of our families.

We have had the privilege of calling upon the district physician more frequently to visit the chronically ill in their homes and patients awaiting admission to other hospitals. This was most helpful and in some instances it was possible to substitute home care for hospitalization.

RECORDING—The practice of attaching a short abstract of pertinent facts of the patient's social history to the medical chart is being carried out, and has created a real interest on the part of some of our physicians. This procedure will reach its greatest value when all physicians will read and consider these abstracts as they do the notes made by the clinical Services.

For the "Full Study and Treatment" cases an outline form is used. We are at present working on a new system which we hope will result in the further simplification of our record keeping and give a better and clearer picture of our activities.

SUMMER WORK—498 children, 86 mothers, and 15 working boys and girls were sent away during the summer. We limited this work to children who had been coming to the clinics regularly during the year and who were more in need of convalescent care than a vacation in the country. The greater number of the children remained only two weeks, as it was not possible to obtain free vacancies for a longer period, and our limited budget hindered us from realizing our ambition to give every child a longer stay in the country. Dr. Sidney D. Leader again examined the children, and his assistance was most helpful.

STAFF EDUCATION—Our customary plan of staff education by teaching the new workers through weekly individual tutorial conferences and by organizing the staff into small groups, has been continued under the supervision of Mrs. Elsa Butler Grove. Each group studies a problem which is of special interest to its members. For example, one group has decided to analyze the day's demands upon each worker in the office by keeping a "log" for one day. The group is trying to see what service is actually rendered to the

stream of patients contacted during the day. Another group has undertaken to study the change in its own case work since the depression. A third group has elected to study a few home relief cases to ascertain the inter-relationships between medical social work and home relief in actual practice. A fourth group is studying the Tennessee Valley project, the objectives of a planned economy, and to what extent these objectives affect theoretically our social case work treatment.

In these groups we are trying to promote: (a) self-expression, primarily oral, by participation in small discussion groups; (b) a more intimate perception of some area of our case work practice; (c) participation of the entire staff group.

We have dispensed with our regular weekly staff meetings. Occasional meetings, however, are held which are arranged by Mrs. Grove and a staff committee. At two staff meetings, the subject of strikes as they affect the lives of our patients was discussed. Such questions were considered as: Who will support the family of a striker? What does a striker think about while lying in a hospital bed? How does this affect his recovery? Two other staff meetings have dealt with the Citizens' Conservation Camps. Four outside speakers attended the staff meetings, namely a representative of organized labor, a representative of the Citizens' Conservation Camps, one from the Home Relief Bureau, and another from the Visiting Housekeeping staff of the Jewish Social Service Association.

STUDENT NURSES—The student nurses again attended lectures on various social aspects of disease and other related social service topics. The following speakers, to whom we are greatly indebted, addressed the nurses: Miss Margaret Byington, Instructor in Community Organization of the New York School of Social Work; Mr. James H. Hubert, Executive Director of the New York Urban League; Dr. Ernst P. Boas, Associate in Medicine of The Mount Sinai Hospital; Miss Katherine Krupsaw of the East Harlem Nursing and Health Service; and Mrs. Elsa Butler Grove, Lecturer on Social Science at Teachers College, Columbia University.

SOCIAL SERVICE COMMITTEE—The Social Service Committee carried on a well defined educational program for its own members. This consisted of talks by some of the heads of various departments in the Hospital as well as by physicians presenting different

phases of medical work carried on in the Hospital. Independent studies were made by some of the members of the Committee on such topics as "The Care of the Chronic Sick in New York City", "Public Outdoor Relief", and "Convalescent Care". Various community agencies were visited in order to gain a more intimate knowledge of their activities. Mrs. Lous M. Loeb and Mrs. Frank L. Weil have personally participated in the routine work of the department. Their assistance has been particularly valuable as it has enabled the workers to devote themselves to more intensive case work.

We have welcomed Mrs. William D. Scholle and Mrs. Henry Siegbert as new members of the Board. Mrs. Henry S. Glazier resigned as Chairman of Cardiac Clinics and has been succeeded by Mrs. Frederick M. Heimerdinger. Mrs. Claude Lazard has assumed the chairmanship of the Committee on Volunteers as Mrs. Edwin M. Berolzheimer was obliged to resign in December.

VOLUNTEERS—95 volunteers are serving the Hospital, covering 63 different departments. Of this number six are giving their time to two services. Most of the volunteers serve the Hospital two hours a day for three days in a week. There are a number, however, who give more time, and some work a full day every day in the week. We are fortunate in having many trained volunteers serving as laboratory technicians, secretaries, and kindergartners. The work of these volunteers is invaluable and is greatly appreciated by the Hospital Administration and by the physicians.

COOPERATING AGENCIES—We have had the same excellent cooperation as in previous years from the social agencies. Home relief still does not meet all the requirements of families under its care. The food allowances have not reached the subsistence level, and the rent schedule should be revised and made more flexible so as to permit our patients to live in suitable quarters, particularly when their physical condition makes that necessary. We find that many families are using the money given for their food for other purposes, namely to supplement rent, for clothing for which provisions are most inadequate, and for other unmet needs. We have many requests for carfare to enable patients to attend clinics, to go to convalescent homes, or to look for work.

A considerable amount of clothing was given to our patients, and we are indebted to our many generous friends, as well as to the different sewing groups and the Needlework Guild of America for their donations.

In a study recently made it was found that over 40% of our total social service case load is composed of Home Relief clients, the highest proportion being 67% of cases in the Children's Social Service Department. One encouraging feature has been the improvement in the Home Relief personnel with better results from the quality and the type of service rendered. We have had much better cooperation in obtaining special diets and nursing care. Single men and women are now receiving assistance which has helped greatly in our dealing with them. From March 15 to October 15, medical and surgical appliances were supplied to patients supported by Home Relief. Since this service was discontinued, we have been spending a considerable amount of money for patients who have required braces, belts, orthopedic shoes, etc. We express the hope that Home Relief will soon be able to assume this obligation again.

The Housekeeping Service of Home Relief, the Junior League, and the Jewish Social Service Association aided us greatly in caring for the children of mothers admitted to the Hospital, or who were ill at home and unable to assume their full responsibilities as home makers.

NEEDS—The greatest need of our patients continues to be material relief. Too frequently they come to the social worker, not for the solution of social problems bearing on their medical condition, but to solve their financial difficulties.

The provisions for chronics are still most inadequate. For the convalescent, we require more free vacancies, more facilities for negroes, diet cases, and patients suffering from non-infectious skin diseases. We have had many requests to send patients suffering from bronchiectasis, lung abscess, sinusitis, asthma, rheumatic fever, and arthritis to a warm climate with even temperature. We have been able to arrange for a small number of patients to move to Florida, but this was only possible in a few cases where there were resources at the patients' command. Our patients show the need for better housing at low rentals; for visiting housekeepers to instruct mothers how to become better housekeepers, and how to manage on their budgets; for house workers when mothers are physically unable to attend to their duties; for more provisions for free dental care; for a place for mentally disturbed patients who are not ill enough to be admitted to a state institution but who are too ill to remain at home, and for more satisfactory provisions for free burial.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

CONCLUSION—We appreciate the support which has been vouchsafed us by the Federation of the Jewish Philanthropic Societies. Members of our Board took a very active part in its money raising campaign.

In concluding this report, I wish to give expression to my warm appreciation of the wholehearted cooperation which has been accorded to us by the Board of Trustees of the Hospital, by Dr. Turner, and all the departments of the Hospital. Mrs. Mendelsohn and her staff, and the members of the Board of the Social Service Auxiliary have all worked together to a common end, to serve the patients under our care so they may receive the benefit of all the resources at our command.

Respectfully submitted,

RUTH M. COOK,

President of the Social Service Auxiliary.

THE MOUNT SINAI SOCIAL SERVICE AUXILIARY

REPORT OF THE TREASURER

THE MOUNT SINAI HOSPITAL LADIES' AUXILIARY SOCIETY

OFFICERS

MRS. LEOPOLD BERNHEIMER.....	PRESIDENT
MRS. OSCAR ROSE	TREASURER
MRS. JOSEPH A. ARNOLD.....	SECRETARY

TO THE BOARD OF TRUSTEES OF THE MOUNT SINAI HOSPITAL:

Gentlemen:

While at the threshold of another year, we must pause and look back over the year that has passed, a year devoted by our Society to the continued making of many thousands of bandages and surgical dressings to be used in the Hospital by our very efficient nurses and doctors. This important work must ever go on, and I am glad to report that it progresses increasingly by our willing co-workers.

In the beginning of the present year one of our beloved directresses passed away, our dear friend, Mrs. Julius Beer, who became a directress of our Society in 1879, and who for fifty years of her life gave to it unsparingly of her time and interest serving much of that period in an official capacity and as a friend always.

May we hope that the next year may find us continuing our good work as heretofore, and finding pleasure in our efforts.

Respectfully submitted,

MRS. LEOPOLD BERNHEIMER,

President.

Extracts from the Constitution on Endowed Beds and Endowments

- A Contribution of \$2,500 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Life Bed. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the general wards of the main Hospital, free of charge.
- A Contribution of \$3,500 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Memorial Bed. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the main Hospital, free of charge. Such donor may bequeath that right to a successor appointed by the said donor in his or her last will and testament, or by any other instrument under seal. In the event of such successor being appointed, the rights hereinbefore mentioned shall continue for a period of not over fifty years from the date of such contribution—such period, however, not to end before ten years from the death of the donor.
- A Contribution of \$5,000 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Perpetual Bed in the Children's Pavilion. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the wards of the Children's Pavilion, free of charge. Such donor may bequeath that right to a successor appointed by said donor in his or her last will and testament or by any other instrument under seal.
- A Contribution of \$7,500 to the General Fund of the Hospital, if accepted by the Board of Trustees, shall endow a Perpetual Bed, but where, under the provision of any will executed prior to March 20, 1921, the sum of \$5,000 or more is bequeathed to the Hospital in payment of any Perpetual Bed, the Board of Trustees may, at their option, accept such sum in payment of such Perpetual Bed. Such contribution shall entitle the donor thereof, during his or her lifetime, to name a patient from time to time to use and occupy one bed in the general wards of the main Hospital, free of charge. Such donor may bequeath that right to a successor appointed by said donor in his or her last will and testament, or by any other instrument under seal.
- When a corporation is the donor, the privilege shall expire at the end of twenty-five years from the date of such contribution.
- Tablets to commemorate the endowment of Life and Memorial Beds shall be placed in the ward selected by the donor, subject to the rules of the Hospital. Tablets for Life Beds shall be maintained during the life of the donor, tablets for Memorial Beds for a period not beyond fifty years from the date of their endowment, such period, however, not to end before ten years from the death of the donor. The endowment of a Perpetual Bed shall entitle the donor, or his legal representative, to have a tablet placed in the ward selected by him, or by them, or to have the endowment recorded on a tablet provided for that purpose in the corridor of the Hospital; such tablets shall be maintained in perpetuity.
- A donor may change a Life Bed endowed by him or her to a Memorial Bed by making an additional contribution of \$1,000, or to a Perpetual Bed by making an additional contribution of \$5,000, or may change a Memorial Bed to a Perpetual Bed by making an additional contribution of \$4,000.
- No patient shall occupy a Life, Memorial or Perpetual Bed unless he shall comply with the current rules of the Hospital and be a proper subject for treatment according to its regulations.
- An endowment for the establishing of any special fund may be accepted by a resolution of the Board of Trustees. Such fund may be created either for a special purpose, in which event the income therefrom shall be devoted to such purpose only, or under the name of one or more persons, in which event the income therefrom shall be devoted to the general purposes of the Hospital. Such endowment funds shall be kept by the Treasurer as special accounts. Contributions to existing funds may be made at any time, but no funds shall be created with an initial endowment of less than Ten Thousand Dollars.
